V. V. Golomoziy and N. V. Kartashov, *On the integrability of the coupling moment for time-inhomogeneous Markov chains* .................................................. 1

B. P. Harlamov, *Semi-Markov approach to the problem of delayed reflection of diffusion Markov processes* .......................................................... 13

Karl-Heinz Indlekofer, *On a conjecture of Erdős about additive functions* .... 23

A. V. Ivanov and B. M. Zhurakovskyi, *Consistency and asymptotic normality of the periodogram estimator of harmonic oscillation parameters* ........ 33

N. V. Kartashov, *Quantitative and qualitative limits for exponential asymptotics of hitting times for birth-and-death chains in a scheme of series* ........ 45

Victoria Knopova, *Compound kernel estimates for the transition probability density of a Lévy process in $\mathbb{R}^n$* ......................................................... 57

V. S. Koroliuk, R. Manca, and G. D’Amico, *Storage impulsive processes on increasing time intervals* ................................................................. 71

Alexei M. Kulik and Taras D. Tymoshkevych, *Lift zonoid order and functional inequalities* ................................................................. 83

G. L. Kulinich, S. V. Kushnirenko, and Y. S. Mishura, *Asymptotic behavior of integral functionals of unstable solutions of one-dimensional Itô stochastic differential equations* ......................................................... 101

N. Limnios and I. V. Samoilenko, *Poisson approximation of processes with locally independent increments and Markov switching* ........ 115

Y. Mishura and V. Zubchenko, *Properties of integrals with respect to fractional Poisson processes with compact kernels* ........................ 143

Mikael Petersson, *Quasi-stationary distributions for perturbed discrete time regenerative processes* ................................................................. 153

D. S. Pupashenko, S. V. Shklyar, and A. G. Kukush, *Asymptotic properties of the corrected score estimator in the autoregressive model with measurement errors* ................................................................. 169

G. Shevchenko, *Mixed stochastic delay differential equations* ........ 181
UKRAINIAN CONTENTS*

V. V. Golomziy, N. V. Kartashov
On coupling moment integrability for time-inhomogeneous Markov chains 1

B. P. Harlamov
Semi-Markov approach to the problem of delayed reflection of diffusion Markov processes 12

Karl-Heinz Indlekofer
On a conjecture of Erdős about additive functions 21

A. V. Ivanov, B. M. Zhurakowskij
Consistency and asymptotic normality of periodogram estimator of harmonic oscillation parameters 30

N. V. Kartashov
Quantitative and qualitative limits for exponential asymptotics of hitting times for birth-and-death chains in a scheme of series 40

Victoria Knopova
Compound kernel estimates for the transition probability density of a Lévy process in \( \mathbb{R}^n \) 51

V. S. Koroliuk, R. Manca, G. D’Amico
Storage impulsive processes on increasing time intervals 64

Alexei M. Kulik, Taras D. Tymoshkevych
Lift zonoid order and functional inequalities 75

G. L. Kulminich, S. V. Kushnirenko, Y. S. Mishura
Asymptotic behavior of the integral functionals for unstable solutions of one-dimensional Itô stochastic differential equations 91

N. Limnios, I. V. Samoilenko
Poisson approximation of processes with locally independent increments with Markov switching 104

M. M. Luz, M. P. Moklyachuk
Minimax-robust filtering problem for stochastic sequence with stationary increments 115

Y. Mishura, V. Zubchenko
Properties of integrals with respect to fractional Poisson process with the compact kernel 130

Mikael Petersson
Quasi-stationary distributions for perturbed discrete time regenerative processes 140

D. S. Papashenko, S. V. Shklyar, A. G. Kukush
Asymptotic properties of corrected score estimator in autoregressive model with measurement errors 156

G. Shevchenko
Mixed stochastic delay differential equations 167
