TRANSACTIONS

OF THE

AMERICAN MATHEMATICAL SOCIETY

EDITED BY

ROBERT D. CARMICHAEL

FRANCIS R. SHARPE

JACOB D. TAMARKIN

WITH THE COÖPERATION OF

ERIC T. BELL	EDWARD W. CHITTENDEN	WILLIAM C. GRAUSTEIN
OLIVE C. HAZLETT	EINAR HILLE	AUBREY J. KEMPNER
JOHN R. KLINE	ERNEST P. LANE	CHARLES N. MOORE
MARSTON MORSE	GEORGE Y. RAINICH	JOSEPH F. RITT
CAROLINE E. SEELY	CHARLES H. SISAM	MARSHALL H. STONE

VOLUME 36

1934

PUBLISHED BY THE SOCIETY

MENASHA, WIS., AND NEW YORK

1934

Reprinted with the permission of The American Mathematical Society

JOHNSON REPRINT CORPORATION
111 Fifth Avenue, New York, N. Y. 10003

JOHNSON REPRINT COMPANY LIMITED
Berkeley Square House, London, W. 1

First reprinting, 1964, Johnson Reprint Corporation

PRINTED IN THE UNITED STATES OF AMERICA

TABLE OF CONTENTS

VOLUME 36, 1934

PAGE

ADAMS, C. R., and CLARKSON, J. A., of Providence, R. I. Properties of functions $f(x, y)$ of bounded variation 711

ALBERT, A. A., of Princeton, N. J. Normal division algebras over a modular field 388

——— On normal Kummer fields over a non-modular field 885

BELL, E. T., of Pasadena, Calif. On the power series for elliptic functions . 841

BERNSTEIN, B. A., of Berkeley, Calif. A set of four postulates for Boolean algebra in terms of the "implicative" operation 876

BRAHANA, H. R., of Urbana, Ill. Metabelian groups of order p^{n+m} with commutator subgroups of order p^m 776

BROWN, A. B., and KOOPMAN, B. O., of New York, N. Y. The Riemann multiple-space and algebroid functions 618

CAMERON, R. H., of Ithaca, N. Y. Almost periodic transformations . . 276

CLARKSON, J. A., and ADAMS, C. R., of Providence, R. I. Properties of functions $f(x, y)$ of bounded variation 711

DIAMOND, A. H., of Berkeley, Calif. Correction to a paper on the Whitehead-Huntington postulates 893

DICKSON, L. E., of Chicago, Ill. Waring's problem for cubic functions . . 1

——— A new method for Waring theorems with polynomial summands . 731

DOOB, J. L., of New York, N. Y. Probability and statistics 759

DYE, L. A., and SHARPE, F. R., of Ithaca, N. Y. The Bertini transformation in space 292

EIESLAND, J., of Morgantown, W. Va. The ruled V_4^4 in S_5 associated with a Schläfli hexad 315

GORE, G. D., of Chicago, Ill. Inscribed sequences of surfaces associated with generalized sequences of Laplace 530

GRAUSTEIN, W. C., of Cambridge, Mass. The geometry of Riemannian spaces 542

GROVE, V. G., of East Lansing, Mich. On a certain correspondence between surfaces in hyperspace. 627

HESTENES, M. R., of Cambridge, Mass. Sufficient conditions for the problem of Bolza in the calculus of variations 793

HILDEBRANDT, T. H., of Ann Arbor, Mich. On bounded linear functional operations 868

HINRICHSEN, J. J. L., of Ames, Iowa. On the problem of n bodies . . . 306

JAMES, R. D., of Pasadena, Calif. The value of the number $g(k)$ in Waring's problem 395

JEFFERY, R. L., of Wolfville, Nova Scotia. Derived numbers with respect to functions of bounded variation 749
KELLOGG, O. D., of Cambridge, Mass. Converses of Gauss' theorem on the arithmetic mean 227
KOOPMAN, B. O., and BROWN, A. B., of New York, N. Y. The Riemann multiple-space and algebroid functions 618
LANE, E. P., of Chicago, Ill. The moving trihedron 696
LANGER, R. E., of Madison, Wis. The asymptotic solutions of certain linear ordinary differential equations of the second order 90
——— The solutions of the Mathieu equation with a complex variable and at least one parameter large 637
MCCOY, N. H., of Northampton, Mass. On quasi-commutative matrices . 327
MACCOLL, L. A., of New York, N. Y. On the distributions of the zeros of sums of exponentials of polynomials 341
MACQUEEN, M. L., of Memphis, Tenn. A projective generalization of metrically defined associate surfaces 826
MILLER, G. A., of Urbana, Ill. Groups in which the squares of the elements are a dihedral subgroup 819
VON NEUMANN, J., of Princeton, N. J. Almost periodic functions in a group. I 445
NEWTON, A. V., of Chicago, Ill. Consecutive covariant configurations at a point of a space curve 44
ORE, O., of New Haven, Conn. Contributions to the theory of finite fields 243
——— Errata in my paper "On a special class of polynomials" 275
RAUDENBUSH, H. W., of New York, N. Y. Ideal theory and algebraic differential equations 361
REGAN, F., of St. Louis, Mo. The application of the theory of admissible numbers to time series with constant probability 511
ROSSKOPF, M. F., of Clayton, Mo. Some inequalities for non-uniformly bounded ortho-normal polynomials 853
RUSSELL, H. G., of Wellesley, Mass., and WALSH, J. L., of Cambridge, Mass. On the convergence and overconvergence of sequences of polynomials of best simultaneous approximation to several functions analytic in distinct regions 13
SEIDEL, W., of Cambridge, Mass. On the distribution of values of bounded analytic functions 201
SHARPE, F. R., and DYE, L. A., of Ithaca, N. Y. The Bertini transformation in space 292
SIMMONS, H. A., of Evanston, Ill. The first and second variations of an n-tuple integral in the case of variable limits. 29
WALSH, J. L., of Cambridge, Mass., and RUSSELL, H. G., of Wellesley, Mass. On the convergence and overconvergence of sequences of poly-

nomials of best simultaneous approximation to several functions analytic in distinct regions 13
WEBBER, G. C., of Chicago, Ill. Waring's problem for cubic functions . . 493
WHITNEY, H., of Cambridge, Mass. Analytic extensions of differentiable functions defined in closed sets 63
——— Differentiable functions defined in closed sets. I 369
WIDDER, D. V., of Cambridge, Mass. The inversion of the Laplace integral and the related moment problem 107
ZYGMUND, A., of Vilna, Poland. Some points in the theory of trigonometric and power series 586
Errata 275, 893
Portrait of E. H. Moore . . . . . Frontispiece

ELIAKIM HASTINGS MOORE
January 26, 1862–December 30, 1932
First Editor-in-Chief of these TRANSACTIONS
