Journals Published by the

American Mathematical Society

Bulletin of the
American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings, with abstracts of all research papers presented. It contains numerous short original papers on mathematical topics, and some of the longer officially invited addresses presented before the Society. It contains also announcements and notes on matters of current interest, and reviews of advanced mathematical books.

The Bulletin is published monthly. The price per annual volume is $9.00. Sets of volumes are available as follows: vols. 1-36 (1894-1930), $7.00 each; vols. 37-47 (1931-1941), $9.00 each.

Transactions of the
American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics.

Two volumes of three numbers each have been published annually since 1935. The price per volume is $6.00, or per year $12.00. Volumes 1-36 (1900-1934) consist of four numbers each. Sets of volumes are available as follows: vols. 1-21 (1900-1920), $7.00 each; vols. 22-32 (1921-1930), $8.00 each; vols. 33-36 (1931-1934), $9.00 each; vols. 37-51 (1935-1942), $6.00 each.

Mathematical Reviews

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored jointly with the Society by such organizations as the Mathematical Association of America, the London Mathematical Society, Argentine Mathematical Union, and the Academy of Sciences of Lima.

The publication of Mathematical Reviews was begun in 1940. It appears monthly and the price per annual volume is $13.00. Orders for complete volumes only are accepted.

A microfilm service has been inaugurated in connection with the publication of this journal. A subscriber may obtain at cost a microfilm or photoprint copy of any article reviewed in the journal, except in a few cases where reproduction is prohibited by copyright law.

Subscriptions for the Bulletin of the American Mathematical Society and the Transactions of the American Mathematical Society may be addressed to the publication office, Menasha, Wis., and subscriptions for Mathematical Reviews may be addressed to the publication office, Lancaster, Pa. However, subscriptions for all these journals should preferably be addressed to the American Mathematical Society, 531 West 116th St., New York, N.Y.

Colloquium Series

F. Klein, The Evanston Colloquium Lectures on Mathematics, 1894, x, 109 pp.; reprinted, 1911, xii, 109 pp. $1.00
Mathematical Papers Read at the International Mathematical Congress, 1896, xvi, 411 pp. 4.70
3. G. A. Bliss, Fundamental Existence Theorems, 1913, x, 107 pp.; reprinted, 1934, iv, 117 pp. 2.00
7. E. T. Bell, Algebraic Arithmetic, 1927, iv, 180 pp. 2.70
8. L. P. Eisenhart, Non-Riemannian Geometry, 1927, viii, 184 pp.; reprinted, 1934, viii, 184 pp. 2.70
9. G. D. Birkhoff, Dynamical Systems, 1927, viii, 295 pp. 3.35
10. A. B. Coble, Algebraic Geometry and Theta Functions, 1929, viii, 282 pp. 3.35
12. S. Lefschetz, Topology, 1930, x, 410 pp. 6.00
13. R. L. Moore, Foundations of Point Set Theory, 1932, viii, 486 pp. 2.70
15. M. H. Stone, Linear Transformations in Hilbert Space and Their Applications to Analysis, 1932, vii, 622 pp. 3.35
16. G. A. Bliss, Algebraic Functions, 1933, x, 218 pp. 3.35
17. H. M. Wedderburn, Lectures on Matrices, 1934, vi, 200 pp. 3.35
18. M. Morse, The Calculus of Variations in the Large, 1934, x, 368 pp. 5.35
19. R. E. A. C. Paley and N. Wiener, Fourier Transforms in the Complex Domain, 1934, viii, 184 pp. + portrait plate. 3.35
20. J. L. Walsh, Interpolation and Approximation by Rational Functions in the Complex Domain, 1935, x, 382 pp. 6.00
22. C. N. Moore, Summable Series and Convergence Factors, 1938, vi, 105 pp. 2.00
23. G. Szegő, Orthogonal Polynomials, 1939, x, 401 pp. 6.00
24. A. A. Albert, Structure of Algebras, 1939, xii, 210 pp. 4.00
25. G. Birkhoff, Lattice Theory, 1940, vi, 135 pp. 2.50
26. N. Levinson, Gap and Density Theorems, 1940, viii, 246 pp. 4.00
27. S. Lefschetz, Algebraic Topology. To appear in July, 1942. 6.00

Semicentennial Publications

1. R. C. Archibald, A Semicentennial History of the American Mathematical Society 1888-1938, with Biographies and Bibliographies of the Past Presidents, 1938, xii, 261 pp. + 30 plates. $3.00

* Out of print.

The price to members of the American Mathematical Society is 25% less than that listed above for each volume.
CONTENTS

Vol. 52, No. 1  JULY, 1942  Whole No. 190

Quadratic Diophantine equations in the rational and quadratic fields. By Ivan Niven………………………………………………………………………………………………………………………………………………1
On the partial sums of harmonic developments and of power series. By Otto Szász………………………………………………………………………………………………………………………………………………………12
Hyperspaces of a continuum. By J. L. Kelley………………………………………………………………………………………………………………………………………………………………………………………………………………22
Topics in the theory of Markoff chains. By J. L. Doob……………………………………………………………………………………………………………………………………………………………………………………………………………37
On converse gap theorems. By George Pólya………………………………………………………………………………………………………………………………………………………………………………………………………………………65
Nörlund summability of double Fourier series. By J. G. Herriot…………………………………………………………………………………………………………………………………………………………………………………………………………72
Transitivities of betweenness. By Everett Pitcher and M. F. Smiley………………………………………………………………………………………………………………………………………………………………………………………95
On the basis theorem for differential systems. By E. R. Kolchin…………………………………………………………………………………………………………………………………………………………………………………………………………115
On the derivatives of functions analytic in the unit circle and their radii of univalence and of $p$-valence. By W. Seidel and J. L. Walsh………………………………………………………………………………………………………………………………………………………………………………………………………………………128

Published in January, March, May, July, September, and November by the American Mathematical Society, Menasha, Wis., and 531 West 116th Street, New York, N.Y.

Entered as second class matter at the post office at Menasha, Wis. Acceptance for mailing at special rate of postage provided for in the Act of February 28, 1925, embodied in paragraph 4, section 528, P. L. and R., authorized May 9, 1935.

Subscriptions to the Transactions may be addressed to the Treasurer, B. P. Gill, Menasha, Wis., or 531 West 116th Street, New York, N.Y. Two volumes, of three numbers each, are published annually, at $6.00 per volume.

Notice: Postal regulations require prominent display of the address of the office of publication of the Transactions; namely, 450 Ashaip Street, Menasha, Wis. Note, however, that correspondence pertaining to the general business of the Society may be addressed to Menasha, but should preferably be sent to the general headquarters of the Society at 531 West 116th Street, New York, N.Y.

Mathematical papers intended for publication in the Transactions should be addressed to one of the editors:

Papers in algebra, number theory, logic and foundations to C. C. MacDuffee, Hunter College, 695 Park Avenue, New York, N.Y.

Papers in analysis, applied mathematics, probability and statistics to Einar Hille, Yale University, New Haven, Conn.

Papers in geometry and topology to Oscar Zariski, The Johns Hopkins University, Baltimore, Md.

All papers should be typewritten, double spaced, and the author should keep a complete copy.
