Journals Published by the
American Mathematical Society

Bulletin of the
American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings, with abstracts of all research papers presented. It contains numerous short original papers on mathematical topics, and some of the longer officially invited addresses presented before the Society. It contains also announcements and notes on matters of current interest, and reviews of advanced mathematical books.

The Bulletin is published monthly. The price per annual volume is $11.00. Sets of volumes are available as follows: vols. 1–36 (1894–1930), $7.00 each; vols. 37–53 (1931–1947), $9.00 each, vol. 54 (1948), $11.00.

Transactions of the
American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics.

In 1949, three volumes will be published. Vol. 65 will consist of three numbers to appear in January, March and May; Vol. 66 will be published in two parts to appear simultaneously in July; Vol. 67 will consist of two numbers to appear in September and November.

Vols. 1–36 (1900–1934) consist of four numbers each. Vols. 37–65 (1935–1949) consist of three numbers each. Sets of volumes are available as follows: Vols. 1–21 (1900–1920), $7.00 each; Vols. 22–32 (1921–1930), $8.00 each; Vols. 33–36 (1931–1934), $9.00 each; Vols. 37–66 (1935–1949), $6.00 each.

Mathematical Reviews

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored jointly with the Society by such organizations as the Mathematical Association of America, the Institute of Mathematical Statistics, the London Mathematical Society, the Edinburgh Mathematical Society, the Argentine Mathematical Union, etc.

The publication of Mathematical Reviews was begun in 1940. It appears monthly excepting July and the price per annual volume is $20.00. Orders for complete volumes only are accepted.
Books Published by the
American Mathematical Society

Colloquium Publications

32. R. L. Wilder, Topology of manifolds, 1949, x, 402 pp. $7.00
31. E. Hille, Functional analysis and semi-groups, 1948, xii, 528 pp. 7.50
30. T. Radó, Length and area, 1948, vi, 572 pp. 6.75
29. A. Weil, Foundations of algebraic geometry, 1946, xx, 288 pp. 5.50
28. G. T. Whyburn, Analytic topology, 1942, x, 278 pp.; reprinted, 1948, x, 280 pp. 4.75
27. S. Lefschetz, Algebraic topology, 1942, vi, 389 pp.; reprinted, 1948, vi, 393 pp. 6.00
26. N. Levinson, Gap and density theorems, 1940, viii, 246 pp. 4.00
24. A. A. Albert, Structure of algebras, 1939, xii, 210 pp. 4.00
23. G. Szegö, Orthogonal polynomials, 1939, x, 401 pp.; reprinted, 1949, x, 403 pp. 6.00
22. C. N. Moore, Summable series and convergence factors, 1938, vi, 105 pp. 2.00
21. J. M. Thomas, Differential systems, 1937, x, 118 pp. 2.00
20. J. L. Walsh, Interpolation and approximation by rational functions in the complex domain, 1935, x, 382 pp. 6.00
18. M. Morse, The calculus of variations in the large, 1934, x, 368 pp.; reprinted, 1948, x, 368 pp. 5.35
17. G. Szegö, Orthogonal polynomials, 1939, x, 401 pp.; reprinted, 1949, x, 403 pp. 6.00
15. J. F. Ritt, Differential equations from the algebraic standpoint, 1932, x, 172 pp.; reprinted, 1948, x, 172 pp. 3.00
14. A. B. Coble, Algebraic geometry and theta functions, 1929, viii, 184 pp.; reprinted, 1948, viii, 184 pp. 4.00
11. H. S. White, Linear systems of curves on algebraic surfaces; F. S. Woods, Forms of non-Euclidean space; E. B. Van Vleck, Selected topics in the theory of divergent series and of continued fractions; 1905, xii, 187 pp. 3.00

Mathematical Surveys

1. J. A. Shohat and J. D. Tamarkin, The problem of moments, 1943, xiv, 140 pp. $2.25
3. M. Marden, The geometry of the zeros of a polynomial in a complex variable, x, 181 pp., to appear soon. 5.00

Semicentennial Publications

1. R. C. Archibald, A semicentennial history of the American Mathematical Society 1888–1938, with biographies and bibliographies of the past presidents, 1938, xii, 261 pp.+30 plates. $3.00

Proceedings of Symposia in Applied Mathematics

1. Non-linear problems in mechanics of continua, iv, 219 pp., to appear soon. $5.25

The price to members of the American Mathematical Society is 25% less than list. Volumes which are not listed above are out of print.
CONTENTS

Vol. 66, No. 2, Part II        JULY, 1949        Whole No. 233

The transformation of Wiener integrals by nonlinear transformations.
By R. H. CAMERON and W. T. MARTIN................................. 253

A non homogeneous ergodic theorem. By P. R. HALMOS............. 284

Nonlinear integral equations of the Hammerstein type. By C. L.
DOLPH.............................................................. 289

Exceptional values of meromorphic functions. By E. F. COLLINGWOOD. 308

On cyclic additivity theorems. By E. J. MICKLE and T. RADO........ 347

On the permutational representation of general sets of operations by
partition lattices. By A. L. FOSTER................................. 366

Incidence relations in multicoherent spaces. I. By A. H. STONE..... 389

On the zeros of rational functions having prescribed poles, with applica-
tions to the derivative of an entire function of finite genre. By
MORRIS MARDEN................................................. 407

Rectilinear congruences. By C. C. HSIUNG............................ 419

On the size of certain number-theoretic functions. By W. J. LEVEQUE. 440

Elementary divisors and modules. By IRVING KAPLANSKY............ 464

Errata, Volume 65.................................................. 492

Mathematical papers intended for publication in the Transactions should be addressed
to one of the editors:

Papers in algebra, number theory, logic and foundations to Saunders MacLane, University
of Chicago, Chicago 37, Ill.

Papers in analysis, applied mathematics, probability and statistics to Antoni Zygmund,
University of Chicago, Chicago 37, Ill.

Papers in geometry and topology to G. T. Whyburn, School of Mathematics, University
of Virginia, Charlottesville, Va.

All papers should be typewritten, double spaced, and the author should keep a complete
copy.

Authors are required to present abstracts of their papers to the Society on blanks which
may be obtained from the general office of the Society at 531 West 116th Street, New York 27,
N. Y.

Transactions of the American Mathematical Society is indexed regularly by Engineering
Index, Inc.

A Statement of Editorial Policy. Because of the large accumulation of manuscripts and
the heavy demand for space and in order to avoid long delay in publication, the editors of
the Transactions may require substantial condensation of manuscripts before they are ac-
cepted. Authors must present their results in as compact a form as possible and should avoid
space-consuming exposition and discussion. Long manuscripts will be subject to especial
scrutiny on these points by the editors.
