Journals Published by the
American Mathematical Society

Bulletin of the
American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings, with abstracts of all research papers presented. It contains some of the officially invited addresses presented before the Society. It contains also announcements and notes on matters of current interest, and reviews of advanced mathematical books.

One volume of six numbers is planned for 1950. The subscription price for the Bulletin and the Proceedings (see below) is $11.00. The two journals are provided together to subscribers, and cannot be obtained separately. Sets of volumes of the Bulletin are available as follows: vols. 1–36 (1894–1930), $7.00 each; vols. 37–53 (1931–1947), $9.00 each; vols. 54–55 (1948–1949), $11.00 each. In 1951 the Bulletin may be obtained separately from the Proceedings and the subscription price will be $7.00.

Proceedings of the
American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and is devoted principally to the publication of original papers of moderate length. Volume 1 appears in 1950.

One volume of six numbers is planned for 1950. The Proceedings is supplied with the Bulletin to all subscribers. See the announcement concerning the Bulletin above. In 1951 the Proceedings may be obtained separately from the Bulletin and the subscription price will be $11.00.

Transactions of the
American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and includes in general longer memoirs than the Proceedings.

Normally two volumes of three numbers each are published annually. The price per volume is $6.00. Volumes 1–36 (1900–1934) consist of four numbers each. Volumes 66–67 (1949) consist of two numbers each. Sets of volumes are available as follows: Vols. 1–21 (1900–1920), $7.00 each; Vols. 22–32 (1921–1930), $8.00 each; Vols. 33–36 (1931–1934), $9.00 each; Vols. 37–68 (1935–1950), $6.00 each.

Mathematical Reviews

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored by 13 mathematical organizations both in the United States and abroad.

The publication of Mathematical Reviews was begun in 1940. It appears monthly excepting July and the price per annual volume is $20.00. Orders for complete volumes only are accepted. Volumes 1–10 are available at $20.00 per volume.

Colloquium Publications

32. R. L. Wilder, Topology of manifolds, 1949, x, 402 pp. 7.00
31. E. Hille, Functional analysis and semi-groups, 1948, xii, 528 pp. 7.50
30. T. Radó, Length and area, 1948, vi, 572 pp. 6.75
29. A. Weil, Foundations of algebraic geometry, 1946, xx, 288 pp. 5.50
28. G. T. Whyburn, Analytic topology, 1942, x, 278 pp.; reprinted, 1948, x, 280 pp. 4.75
27. S. Lefschetz, Algebraic topology, 1942, vi, 389 pp.; reprinted, 1948, vi, 393 pp. 6.00
26. N. Levinson, Gap and density theorems, 1946, vii, 246 pp. 4.00
24. A. A. Albert, Structure of algebras, 1939, xii, 210 pp. 4.00
23. G. Szegö, Orthogonal polynomials, 1939, x, 401 pp.; reprinted, 1949, x, 403 pp. 6.00
22. C. N. Moore, Summable series and convergence factors, 1938, vi, 103 pp. 2.00
21. J. M. Thomas, Differential systems, 1937, x, 118 pp. 2.00
19. J. F. Ritt, Differential equations from the algebraic standpoint, 1932, x, 172 pp.; reprinted, 1948, x, 172 pp. 3.00
18. M. Morse, The calculus of variations in the large, 1934, x, 368 pp.; reprinted, 1948, x, 368 pp. 5.35
16. G. A. Bliss, Algebraic functions, 1933, x, 220 pp.; reprinted, 1946, x, 220 pp. 2.75
15. J. F. Ritt, Differential equations from the algebraic standpoint, 1932, x, 172 pp.; reprinted, 1946, x, 172 pp. 3.00
13. A. B. Coble, Algebraic geometry and theta functions, 1929, viii, 184 pp.; reprinted, 1948, vi, 184 pp. 4.00
11. L. P. Eisenhart, Non-Riemannian geometry, 1927, viii, 184 pp.; reprinted, 1948, vi, 184 pp. 2.35
8. H. S. White, Linear systems of curves on algebraic surfaces; F. S. Woods, Forms of non-Euclidean space; E. B. Van Vleck, Selected topics in the theory of divergent series and of continued fractions; 1905, xii, 187 pp. 3.00

Mathematical Surveys

3. M. Marden, The geometry of the zeros of a polynomial in a complex variable, 1949, x, 181 pp. $5.00

Memoirs

1. G. T. Whyburn, Open mappings on locally compact spaces, 1950, ii, 24 pp. $0.75

Proceedings of Symposia in Applied Mathematics

2. Electromagnetic theory, 1950, iv, 91 pp. $3.00
1. Non-linear problems in mechanics of continua, 1949, iv, 219 pp. 5.25

The price to members of the American Mathematical Society is 25% less than list. Volumes which are not listed above are out of print.
CONTENTS

Vol. 68, No. 3    MAY, 1950    Whole No. 238

Theory of reproducing kernels. By N. Aronszajn.......................... 337

On generalized Jacobians. By T. Rado and P. V. Reichelderfer... 405

Abelian group algebras of finite order. By Sam Perlis and G. L. Walker................................. 420

The normal completion of the lattice of continuous functions. By R. P. Dilworth.............................. 427

Free mobility and orthogonality. By Reinhold Baer.................... 439

On solutions with algebraic character of linear partial differential equations. By Stefan Bergman................................. 461

Euclid's algorithm in certain quartic fields. By H. Davenport..... 508

Mathematical papers intended for publication in the Transactions should be addressed to one of the editors:

Papers in algebra, number theory, logic and foundations to Saunders MacLane, University of Chicago, Chicago 37, Ill.

Papers in probability, theory of measure, and real variables to J. L. Doob, Department of Mathematics, Cornell University, Ithaca, N. Y.

Other papers in analysis and applied mathematics to L. V. Ahlfors, Department of Mathematics, Harvard University, Cambridge 38, Mass.

Papers in geometry and topology to G. T. Whyburn, School of Mathematics, University of Virginia, Charlottesville, Va.

All papers should be typewritten, double spaced, and the author should keep a complete copy.

Transactions of the American Mathematical Society is indexed regularly by Engineering Index, Inc.

A Statement of Editorial Policy. Because of the large accumulation of manuscripts and the heavy demand for space and in order to avoid long delay in publication, the editors of the Transactions may require substantial condensation of manuscripts before they are accepted. Authors must present their results in as compact a form as possible and should avoid space-consuming exposition and discussion. Long manuscripts will be subject to especial scrutiny on these points by the editors.
