TABLE OF CONTENTS
VOLUME 94, JANUARY TO MARCH, 1960

ALLING, N. L. On ordered divisible groups 498

BECK, ANATOLE. Eigen operators of ergodic transformations 118

BENEŠ, V. E. Combinatory methods and stochastic Kolmogorov equations in the theory of queues with one server 282

CARROLL, F. W. On some classes of noncontinuable analytic functions. 74

COHEN, H. J., SUPNICK, FRED and KESTON, J. F. On the powers of a real number reduced modulo one 244

ELLIS, ROBERT. A semigroup associated with a transformation group. 272

ELLIS, ROBERT and GOTTSCHALK, W. H. Homomorphisms of transformation groups 258

FELL, J. M. G. The dual spaces of C^*-algebras 365

FORSYTHE, G. E. and HENRICI, P. The cyclic Jacobi method for computing the principal values of a complex matrix 1

GEHRING, F. W. The boundary behavior and uniqueness of solutions of the heat equation 337

GORDON, HUGH. Topologies and projections on Riesz spaces 529

GORMAN, C. D. Brownian motion of rotation 103

GOTTSCHALK, W. H. and ELLIS, ROBERT. Homomorphisms of transformation groups 258

GROSS, LEONARD. Integration and nonlinear transformations in Hilbert space 404

HANANI, HAIM. A generalization of the Banach and Mazur game 86

HANO, JÙN-ICHI and KOBAYASHI, SHOSHICHI. A fibering of a class of homogeneous complex manifolds 233

HENRICI, P. and FORSYTHE, G. E. The cyclic Jacobi method for computing the principal values of a complex matrix 1

HERZ, C. S. The spectral theory of bounded functions 181

HEUSER, HARRO. On the spectral theory of symmetric finite operators 327

KESTON, J. F., SUPNICK, FRED and COHEN, H. J. On the powers of a real number reduced modulo one 244

KOBAYASHI, SHOSHICHI and HANO, JÙN-ICHI. A fibering of a class of homogeneous complex manifolds 233

LEES, MILTON. Energy inequalities for the solution of differential equations 58

LEVEQUE, W. J. On the frequency of small fractional parts in certain real sequences. II 130

LIN, C. C. and RABENSTEIN, A. L. On the asymptotic solutions of a class of ordinary differential equations of the fourth order. I. Existence of regular formal solutions 24

O'KEEFE, K. B. A property of the differential ideal $[y^p]$ 483

RABENSTEIN, A. L. and LIN, C. C. On the asymptotic solutions of a class of ordinary differential equations on the fourth order. I. Existence of regular formal solutions 24

RANEY, G. N. Functional composition patterns and power series reversion 441

SCHAFER, R. D. Nodal noncommutative Jordan algebras and simple Lie algebras of characteristic p 310

SELIGMAN, G. B. On automorphisms of Lie algebras of classical type. II 452

SPITZER, FRANK. A Tauberian theorem and its probability interpretation 150

STROMBERG, KARL. Probabilities on a compact group 295

SUPNICK, FRED, COHEN, H. J. and KESTON, J. F. On the powers of a real number reduced modulo one 244

ULLMAN, J. L. Studies in Faber polynomials. I 515

WIDOM, HAROLD. A theorem on translation kernels in n dimensions .. 170
