Journals Published by the
American Mathematical Society

Bulletin of the American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings. It contains some of the officially invited addresses presented before the Society, reviews of advanced mathematical books, research problems and a department of research announcements.

One volume of six numbers is planned for 1961. The subscription price is $7.00. The prices for back issues, insofar as they are available, are $2.35 per single issue and $3.35 per double issue.

Proceedings of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and is devoted principally to the publication of original papers of moderate length. Volume I appeared in 1950. A department called Mathematical Pearls was established in 1961. The purpose of this department is to publish very short papers of an unusually elegant and polished character, for which there is normally no other outlet.

One volume of six numbers is planned for 1961. The subscription price is $11.00. Vols. 1–11 (1950–1960) are available at the price of $2.35 per issue.

Transactions of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and includes, in general, longer papers than the Proceedings.

Four volumes of three numbers each will be published in 1961. The price per volume is $8.00. Volumes 1–36 (1900–1934) consist of four numbers each. Volumes 66–67 (1949) and 78–89 (1955–1958) consist of two numbers each. All other volumes consist of three numbers each. The prices for back issues, insofar as they are available, are $4.00 per issue.

Mathematical Reviews

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored by 13 mathematical organizations both in the United States and abroad.

The publication of MATHEMATICAL REVIEWS was begun in 1940. It appears monthly in two parts. From 1940–1961, inclusive, one volume was published each year. The price per volume is $50.00. Volumes 10 and 17 are not available. Volumes 1–9, 11–16 and 18–21 are available at the following prices: Vols. 1–14 (1940–1953) $24.00 each; all other volumes $50.00. Beginning in 1962 two volumes will be published. Each volume will be $50.00.

Published monthly by the American Mathematical Society, Menasha, Wis., and 190 Hope Street, Providence 6, R. I.

Second-class postage paid at Menasha, Wisconsin. Acceptance for mailing at special rate of postage provided for in the Act of February 28, 1925, embodied in paragraph 4, section 538, P. L. and R., authorized May 9, 1935.

Subscriptions for the Bulletin of the American Mathematical Society, the Proceedings of the American Mathematical Society, and the Transactions of the American Mathematical Society may be addressed to the publication office, Menasha, Wis. However, subscriptions for all these journals should preferably be addressed to the American Mathematical Society, 190 Hope Street, Providence 6, R. I.

Soviet Mathematics—Doklady
This journal contains the entire pure mathematics section of the DOKLADY AKADEMI
NAUK SSSR in translation. It appears six times a year, each bimonthly issue corresponding to
one volume of the Soviet DOKLADY. (The DOKLADY AKADEMI NAUK SSSR is issued three times
a month, six issues constituting a volume.)
Rates per annual volume are as follows: Domestic subscriptions, $17.50; foreign subscrip-
tions, $20.00. Single issues are $5.00.

Notices of the American Mathematical Society
This journal announces the programs of the meetings of the Society. It carries the abstracts
of all contributed papers presented at the meetings of the Society and publishes news items of
interest to mathematical scientists.
The subscription price is $7.00 per annual volume of 7 numbers. A single copy is $2.00.
All communications should be addressed to the Editor G. L. Walker, 190 Hope Street,
Providence 6, Rhode Island. News items and insertions for each issue must be in the hands
of the editor on or before the deadline for the abstracts for the papers to be presented in the
meetings announced in that issue. These deadlines are published regularly on the back of the
Table of Contents of each issue.

Memoirs of the
American Mathematical Society
This is a series of paperbound research tracts which are of the same general character as
papers published in the TRANSACTIONS. An issue contains either a single monograph or a group
of cognate papers. Published at irregular intervals. The latest numbers in this series are:
29. Edward Halpern, Twisted polynomial hyperalgebras. 61 pp. 1958 .......................... 1.50
30. L. Auslander and L. Markus, Flat Lorentz 3-manifolds. 60 pp. 1959 .......................... 2.00
31. W. S. Loud, Periodic solutions of $x''+cx'+g(x)=f(t)$. 58 pp. 1959 .......................... 2.00
32. R. S. Pierce, Translation lattices. 66 pp. 1959 .................................................. 1.70
33. Ernst Snapper, Cohomology theory and algebraic correspondences. 96 pp. 1959 .......................... 1.90
34. E. M. Zaustinsky, Spaces with non-symmetric distance. 91 pp. 1959 .......................... 2.00
35. Richard Bellman and K. L. Cooke, Asymptotic behavior of solutions of differential-
difference equations. 91 pp. 1959 .................................................................. 2.00
37. Paul Olum, Invariants for effective homotopy classification and extension of mappings.
60 pp. 1961 .................................................................................................. 1.60
38. R. A. Beaumont and R. S. Pierce, Torsion free groups of rank two. 41 pp. 1961 .................................................................. 1.50
39. V. L. Shapiro, Topics in Fourier and geometric analysis. 100 pp. 1961 ...................... 1.70
40. M.-E. Hamstrom, Regular mappings and the space of homeomorphisms on a 3-mani-
fold. 42 pp. 1961 ........................................................................................ 1.50
CONTENTS

Vol. 100, No. 2                AUGUST, 1961                Whole No. 311

The homology of twisted cartesian products. By R. H. Szczarba...... 197

Partition functions whose logarithms are slowly oscillating.
   By S. Parameswaran ........................................ 217

Wedges in abelian groups and in linear topological spaces.
   By J. G. McCarthy ........................................... 241

Extreme eigenvalues of translation kernels. By Harold Widom...... 252

On the extreme eigenvalues of Toeplitz matrices. By S. V. Parter... 263

Semi-similarity invariants for spectral operators on Hilbert space.
   By A. N. Feldzamen........................................... 277

Constructive versions of ordinal number classes. By D. L. Kreider and
   Hartley Rogers, Jr............................................. 325

Correction to Generalized means. By F. B. Wright................... 370

Mathematical papers intended for publication in the TRANSACTIONS should be addressed
to one of the editors:
Papers in analysis and applied mathematics to Lipman Bers, Institute of Mathematical
   Papers in algebra, logic, and number theory to Daniel Zelinsky, Department of Mathematics,
   Northwestern University, Evanston, Illinois.
   Papers in statistics and probability to Michel Loève, Department of Statistics, University
   of California, Berkeley 4, California.
   Papers in geometry and abstract analysis to I. M. Singer, Department of Mathematics,
   Massachusetts Institute of Technology, Cambridge 39, Massachusetts.
   Papers in topology to W. S. Massey, Department of Mathematics, Box 2155, Yale Station,
   Yale University, New Haven, Connecticut.
   All communications relating to Memoirs should be addressed to Lipman Bers, Institute
   All other communications to the editors should be addressed to the Managing Editor,
   Lipman Bers.

All papers should be typewritten, double spaced, and the author should keep a complete
   copy. A Manual for Authors can be obtained from the American Mathematical Society, 190
   Hope Street, Providence 6, Rhode Island.

Transactions of the American Mathematical Society is indexed regularly by Engineering
   Index, Inc.
