

TRANSACTIONS
OF THE
AMERICAN MATHEMATICAL SOCIETY

EDITED BY

LIPMAN BERS

H. P. McKEAN

W. S. MASSEY

I. M. SINGER

DANIEL ZELINSKY

WITH THE COOPERATION OF

A. P. CALDERÓN

K. L. CHUNG

M. D. DAVIS

ELDON DYER

BERTRAM KOSTANT

J. C. MOORE

G. D. MOSTOW

ZEEV NEHARI

VOLUME 106, NUMBER 1

JANUARY, 1963

PUBLISHED BY THE AMERICAN MATHEMATICAL SOCIETY

PROVIDENCE, RHODE ISLAND

1963

Journals Published by the
American Mathematical Society

**Bulletin of the
American Mathematical Society**

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings. It contains some of the officially invited addresses presented before the Society, reviews of advanced mathematical books, research problems and a department of research announcements.

One volume of six numbers is planned for 1963. The subscription price is \$7.00. The prices of back volumes, insofar as they are available, are as follows: vols. 1-27, 29 (1894-1921, 1923), \$23.50 each; vol. 28 (1922), \$19.70; vols. 30-35 (1924-1929), \$20.00 each; vols. 36-55 (1930-1949), \$28.00 each; vols. 56-68 (1950-1962), \$14.00 each.

**Proceedings of the
American Mathematical Society**

This journal is devoted entirely to research in pure and applied mathematics, and is devoted principally to the publication of original papers of moderate length. Volume I appeared in 1950. The journal contains a department called Shorter Notes. The purpose of this department is to publish very short papers of an unusually elegant and polished character, for which there is normally no other outlet.

One volume of six numbers is planned for 1963. The subscription price is \$11.00. Vols. 1-13 (1950-1962) are available at \$14.00 per volume.

**Transactions of the
American Mathematical Society**

This journal is devoted entirely to research in pure and applied mathematics, and includes in general, longer papers than the PROCEEDINGS.

Four volumes of three numbers each will be published in 1963. The price per volume is \$8.00. All inquiries for volumes 1-69 should be directed to Johnson Reprint Corporation, 111 Fifth Avenue, New York 3, New York. Orders for volumes 70-105 should be directed to the American Mathematical Society; the price for back issues insofar as they are available is \$4.00 per issue (vols. 78-89 contain 2 issues, vols. 70-77 and 90-105 contain 3 issues).

Mathematical Reviews

This journal is devoted to abstracts and reviews of the current mathematical literature of the world. Two volumes will be published in 1963, Volume 25 and Volume 26. Each volume will consist of 6 regular issues plus an index issue. In each regular issue the abstracts and reviews are grouped under subject headings. Publication began in 1940.

Subscription price per volume of 7 issues is \$50.00; 2 volumes per year \$100.00. Back issues: volumes 1-16 (1940-1955) \$42.00 per volume; volumes 17-24 (1956-1962) \$50.00 per volume.

Published monthly by the American Mathematical Society. Subscriptions for Journals published by the American Mathematical Society should be addressed to American Mathematical Society, 190 Hope Street, Providence 6, Rhode Island.

Journals Published by the
American Mathematical Society

Soviet Mathematics—Doklady

This journal contains the entire pure mathematics section of the DOKLADY AKADEMII NAUK SSSR in translation. It appears six times a year, each bimonthly issue corresponding to one volume of the Soviet DOKLADY. (The DOKLADY AKADEMII NAUK SSSR is issued three times a month, six issues constituting a volume.)

Current subscriptions are as follows: Domestic, \$17.50; foreign, \$20.00. Single issues are \$5.00. Volumes 1, 2 and 3 (1960–1962) are available at \$30.00 per volume or \$5.00 per issue.

Notices of the American Mathematical Society

This journal announces the programs of the meetings of the Society. It carries the abstracts of all contributed papers presented at the meetings of the Society and publishes news items of interest to mathematical scientists.

The subscription price is \$7.00 per annual volume. A single copy is \$2.00. Volumes 5–9 are available at \$14.00 per volume. No back issues are available before 1958.

All communications should be addressed to the Editor, 190 Hope Street, Providence 6, Rhode Island. News items and insertions for each issue must be in the hands of the editor on or before the deadline for the abstracts for papers to be presented at the meetings announced in that issue. These deadlines are published regularly on the back of the Table of Contents of each issue.

Mathematics of Computation

A journal devoted to original papers in numerical analysis, the application of numerical methods and high-speed calculator devices, the computation of mathematical tables, the theory of high-speed calculating devices and other aids to computation. In addition it publishes reviews and notes in these and related fields. Published by the Society for the National Academy of Sciences, National Research Council.

The subscription price is \$8.00 per volume of 4 issues. Single copies are \$2.50. *Back issues* insofar as they are available; (1943–1962) \$3.00 per issue; \$12.00 per volume. Write for specific information concerning availability.

Chinese Mathematics—Acta

This is a cover to cover translation into English of Acta Mathematica Sinica, published by Academia Sinica Peking, People's Republic of China. Acta Mathematica Sinica contains current research in all fields of pure mathematics. Two volumes, Vols. 2 and 3, are planned for 1963. Vol. 1 (1962) \$30.00. Subscription price per volume is \$20.00.

CONTENTS

Vol. 106, No. 1

JANUARY, 1963

Whole No. 328

Semi-discrete analytic functions	1
By G. J. Kurowski	
Locally compact semigroups in which a subgroup with compact complement is dense	19
By K. H. Hofmann	
Homogeneous locally compact groups with compact boundary	52
By K. H. Hofmann	
Unique subdirect sums of prime rings	64
By Lawrence Levy	
On a special class of regular p -groups	77
By J. L. Alperin	
Simplification of turning point problems for systems of linear differential equations	100
By Wolfgang Wasow	
Actions of elementary P -groups on manifolds	115
By L. N. Mann and J. C. Su	
The asymptotic distribution of the number of zero free intervals of a stable process	127
By R. K. Getoor	
Classes of predictably computable functions	139
By R. W. Ritchie	
Some calculations of homotopy groups of symmetric spaces	174
By Bruno Harris	
On the orthogonality of measures induced by L -processes	185
By Marek Fisz	

Mathematical papers intended for publication in the TRANSACTIONS should be addressed to one of the editors:

Papers in analysis and applied mathematics to LIPMAN BERS, Courant Institute of Mathematical Sciences, New York University, 4 Washington Place, New York 3, New York.

Papers in algebra, logic, and number theory to DANIEL ZELINSKY, Department of Mathematics, Northwestern University, Evanston, Illinois.

Papers in statistics and probability to H. P. MCKEAN, Department of Mathematics, Massachusetts Institute of Technology, Cambridge 39, Massachusetts.

Papers in geometry and abstract analysis to I. M. SINGER, Department of Mathematics, Massachusetts Institute of Technology, Cambridge 39, Massachusetts.

Papers in topology to W. S. MASSEY, Department of Mathematics, Box 2155, Yale Station, Yale University, New Haven, Connecticut.

All communications relating to Memoirs should be addressed to LIPMAN BERS, Courant Institute of Mathematical Sciences, New York University, 4 Washington Place, New York 3, New York.

All other communications to the editors should be addressed to the Managing Editor, W. S. MASSEY.

All papers should be typewritten, double spaced, and the author should keep a complete copy.

Transactions of the American Mathematical Society are indexed regularly by Engineering Index, Inc.
