**Bulletin of the**  
**American Mathematical Society**

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings. It contains some of the officially invited addresses presented before the Society, reviews of advanced mathematical books, research problems and a department of research announcements.

One volume of six numbers is planned for 1965.

**Proceedings of the**  
**American Mathematical Society**

This journal is devoted entirely to research in pure and applied mathematics, and is devoted principally to the publication of original papers of moderate length. Volume 1 appeared in 1950. The journal contains a department called Shorter Notes. The purpose of this department is to publish very short papers of an unusually elegant and polished character, for which there is normally no other outlet.

One volume of six numbers is planned for 1965.

**Transactions of the**  
**American Mathematical Society**

This journal is devoted entirely to research in pure and applied mathematics, and includes in general, longer papers than the PROCEEDINGS.

The price per volume is \$8.00. All inquiries for volumes 1-69 should be directed to Johnson Reprint Corporation, 111 Fifth Avenue, New York 3, New York. Orders for volumes 70-119 should be directed to the American Mathematical Society.

**Mathematical Reviews**

This journal is devoted to abstracts and reviews of the current mathematical literature of the world. Two volumes will be published in 1965, Volume 29 and Volume 30. Each volume will consist of 6 regular issues plus an index issue. In each regular issue the abstracts and reviews are grouped under subject headings. Publication began in 1940.

**Soviet Mathematics—Doklady**

This journal contains the entire pure mathematics section of the DOKLADY AKADEMII NAUK SSSR in translation. It appears six times a year, each bimonthly issue corresponding to one volume of the Soviet DOKLADY. (The DOKLADY AKADEMII NAUK SSSR is issued three times a month, six issues constituting a volume.)

**Notices of the American Mathematical Society**

This journal announces the programs of the meetings of the Society. It carries the abstracts of all contributed papers presented at the meetings of the Society and publishes news items of interest to mathematical scientists.

All communications should be addressed to the Editor, P.O.Box 6248, Providence, Rhode Island 02904. News items and insertions for each issue must be in the hands of the editor on or before the deadline for the abstracts for papers to be presented at the meetings announced in that issue. These deadlines are published regularly on the back of the title page.

**Mathematics of Computation**

A journal devoted to original papers in numerical analysis, the application of numerical methods and high-speed calculator devices, the computation of mathematical tables, the theory of high-speed calculating devices and other aids to computation. In addition it publishes reviews and notes in these and related fields.

**Chinese Mathematics—Acta**

This is a cover to cover translation into English of Acta Mathematica Sinica, published by Academia Sinica, Peking, People's Republic of China. Acta Mathematica Sinica contains current research in all fields of pure mathematics.

**New Publications**

This quarterly contains listings of new and forthcoming mathematical titles. Included are listings of recent reprints, lecture notes, new journals, journals in microform, and addresses of book, journal and microform publishers. Information to be included in the journal should be addressed to: New Publications, P. O. Box 6248, Providence, Rhode Island 02904.

Mathematical papers intended for publication in the TRANSACTIONS OR MEMOIRS should be addressed to one of the editors:

Papers in analysis and applied mathematics to LOUIS NIRENBERG, Courant Institute of Mathematical Sciences, New York University, 251 Mercer Street, New York, New York 10012.

Papers in algebra, logic and number theory to DANIEL ZELINSKY, Department of Mathematics, Northwestern University, Evanston, Illinois.

Papers in statistics and probability to MICHEL LOËVE, Department of Statistics, University of California, Berkeley 4, California.

Papers in geometry and abstract analysis to I. M. SINGER, Department of Mathematics, Massachusetts Institute of Technology, Cambridge, Massachusetts 02139.

Papers in topology to W. S. MASSEY, Department of Mathematics, Box 2155, Yale Station, Yale University, New Haven, Connecticut.

Papers in mathematical logic and foundations to DANA SCOTT, Department of Mathematics, Stanford University, Stanford, California 94305.

All other communications to the editors should be addressed to the Managing Editor, MICHEL LOËVE.

All papers should be typewritten, double spaced, and the author should keep a complete copy.
