## TABLE ERRATA

308.-A. Erdélyi, W. Magnus, F. Oberhettinger \& F. Tricomi, Higher Transcendental Functions, McGraw-Hill Book Co., Inc., New York, 1953.

The following corrections should be made in this work:
Volume I
P. 104, eq. (43); for $(c-a) F(c+1)$ read $(c-a) z F(c+1)$.
P. 145, eq. (24) : replace italic $P$ and $Q$ by their roman equivalents.
P. 150, second of eqs. (13): for $i$, read $-i$.

Volume II
P. 321, eq. (22) : for $k^{\prime}$, read $k^{\prime 2}$; and for $E(\theta, k)$, read $E\left(\theta, k^{\prime}\right)$.

309.-Mervin E. Muller, "An inverse method for the generation of random normal deviates on large-scale computers," MTAC, v. 12, 1958, p. 167-174.
The following errors have been noted in Table 5, "Inverse Values for the Normal Distribution":

| $j$ | $F\left(x_{j}\right)$ |  | $x_{j}$ |  |  |  |
| ---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | reads |  |  |  |  | should read |
| 36 | 0.64062 | 500 | 0.36018 | 003 | 0.36012 | 989 |
| 92 | 0.85937 | 500 | 1.07750 | 557 | 1.07751 | 557 |
| 96 | 0.87500 | 000 | 1.15035 | 938 | 1.15034 | 938 |
| 100 | 0.89062 | 500 | 1.22984 | 876 | 1.22985 | 876 |
| 102 | 0.89843 | 750 | 1.27268 | 865 | 1.27269 | 865 |
| 110 | 0.92968 | 750 | 1.47345 | 903 | 1.47346 | 759 |
| 116 | 0.95312 | 500 | 1.67594 | 192 | 1.67593 | 973 |
| 119 | 0.96484 | 375 | 1.80989 | 293 | 1.80989 | 224 |

310.-D. J. Finney, "The Fisher-Yates test of significance in $2 \times 2$ contingency tables," Biometrika, v. 35, Parts 1 and 2, May 1948.
These tables have been checked against Tables of the Hypergeometric Probability Distribution, by G. J. Lieberman and D. B. Owen, Stanford University Press, 1961. All the entries were found to be correct, except for the following typographical error:

$$
\begin{aligned}
& \text { p. } 149 \begin{array}{r}
\text { for } \\
\text { for } \\
0
\end{array} .015
\end{aligned}
$$

This error is reproduced in Table 38 on page 188 of Biometrika Tables for Statisticians, Volume 1, by E. S. Pearson and H. O. Hartley, University Press, Cambridge, 1954.

311.-R. Latscha, "Tests of significance in a $2 \times 2$ contingency table: extension of Finney's table," Biometrika, v. 40, Parts 1 and 2, June 1953, p. 74-86.

These tables have been checked against the Lieberman-Owen Tables of the Hypergeometric Probability Distribution, and the following errors noted.

| A | B | $a$ | prob. | for |  | read |  |
| :--- | ---: | :--- | :--- | :--- | :--- | :--- | :--- |
| 16 | 10 | 14 | 0.05 | 4 | .018 | 4 | .017 |
| 16 | 10 | 14 | 0.025 | 4 | .018 | 4 | .017 |
| 16 | 4 | 15 | 0.005 | 1 | .001 | 0 | .001 |
| 17 | 4 | 16 | 0.05 | 1 | .011 | 1 | .012 |
| 17 | 4 | 16 | 0.025 | 1 | .011 | 1 | .012 |
| 19 | 16 | 13 | 0.025 | 4 | .012 | 4 | .012 |
| 19 | 8 | 15 | 0.05 | 2 | .013 | 2 | .014 |
| 19 | 8 | 15 | 0.025 | 2 | .013 | 2 | .014 |
| 19 | 6 | 19 | 0.05 | 4 | $.050-$ | 4 | .050 |
| 20 | 15 | 17 | 0.005 | 5 | .002 | 5 | .003 |
| 20 | 12 | 19 | 0.05 | 7 | .019 | 7 | .018 |
| 20 | 12 | 19 | 0.025 | 7 | .019 | 7 | .018 |

In order to be consistent with the method of construction for this table, in which the value of $b$ recorded is the greatest significant value for which the corresponding probability is less than or equal to the probability shown at the head of the column, the following additional line should be inserted in the appropriate place in the table:

|  |  |  | Probability |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| A | B | $a$ |  | 0.05 | 0.025 | 0.01 | 0.005 |
| 19 | 1 | 19 | 0 | . 050 | --- | --- | --- |

## Corrigenda

Andres Zavrotsky, "Construccion de una escala continua de las operaciones aritmeticas," Math. Comp., Review 63, v. 15, 1961, p. 299-300.

On page 300, line 7, instead of $L^{n} x=H(G x-1)$, read $L^{n} x=H(G x-n)$.
