**Jorge Rivera-Noriega\***, Av. Universidad 1001, Col. Chamilpa, 62209 Cuernavaca, Morelos, Mexico. *Notes on Uniform Rectifiability in the Parabolic Sense.*

We survey some recent progress related to a parabolic version of uniform rectifiability and its connection with  $L^2$  boundedness of certain parabolic singular integrals. (Received March 10, 2010)
