**Patricia Domínguez-Soto\*** ([pdsoto@fcfm.buap.mx](mailto:pdsoto@fcfm.buap.mx)), Universidad Autónoma de Puebla,  
Facultad de Ciencias Físico-Matemáticas, CU, Av. San Claudio y 18 Sur, Col. San Manuel, 72570  
Puebla, Puebla, Mexico. *Connectivity of the Julia and Fatou sets for meromorphic  
functions*. Preliminary report.

We study conditions for which the Julia and Fatou sets have simply-connected components for different classes of meromorphic functions. (Received January 12, 2010)
