George O. Golightly* (gog@risecom.net), George O. Golightly, Rt. 5, Box 276, Jacksonville, TX 75766. *A pair of transformations on odd analytic functions.*

The transformations, one a partial inverse of the other, are based on prior work of the author on Fourier series coefficients for entire functions and the related Lidstone series; more especially on [Laurent series from entire functions, Houston Math. J., 26 (No. 2), 2000]. (Received September 15, 2003)
