

Meeting: 998, Houston, Texas, SS 3A, Special Session on Harmonic and Functional Analysis

998-46-320 **Armando García*** (agarcia@matem.unam.mx), Zona de la Investigación Científica., Circuito Exterior. Ciudad Universitaria., 04510 México., D.F., Mexico. *Some properties of $\Lambda\{E\}$ depending on E .* Preliminary report.

We present some results about properties of the vector valued sequence space $\Lambda\{E\}$ depending on the locally convex space E . In particular we generalize results of Bosch, García, Gilsdorf, Vera, concerning $l_p(E)$. (Received March 01, 2004)
