

Meeting: 998, Houston, Texas, SS 6A, Special Session on Continuum Theory and General Topology (in Honor of David Bellamy's 60th Birthday)

998-54-253 **James T Rogers***, Department of Mathematics, Tulane University, New Orleans, LA 70118.

Homogeneity, arcwise-connectedness, and David Bellamy.

There has been a lot of talk about each of these topics over the last 35 years. We shall discuss some of the more interesting aspects. (Received February 29, 2004)
