

Meeting: 998, Houston, Texas, SS 6A, Special Session on Continuum Theory and General Topology (in Honor of David Bellamy's 60th Birthday)

998-54-413 **B. D. Garrett*** (bdg@ctelcom.net), B. D. Garrett, 4928 Penrose, Fort Worth, TX 76116.

Almost continuous retracts and plane continua. Preliminary report.

Relationships between the fixed point problem for non-separating plane continua and almost continuous retracts are developed. (Received March 02, 2004)
