**William McCallum\*** ([wmc@math.arizona.edu](mailto:wmc@math.arizona.edu)), Department of Mathematics, University of Arizona, Tucson, AZ 85721. *PMET at PCMI*.

This is a report on a PMET workshop (Preparing Mathematicians to Educate Teachers) held at the Park City Mathematics Institute in summer 2005. One component of the workshop was a demonstration class taught to students at the University of Utah planning to become high school mathematics teachers. I will present a video clip of this class and discuss the implications for teacher education. (Received August 28, 2005)
