David Pham* (pham@math.uconn.edu), University of Connecticut, Department of Mathematics, 196 Auditorium Rd, Storrs, CT 06269. *The Drinfel'd double in stringy cohomology*. Preliminary report.

We discuss the natural appearance of the Drinfel'd double in stringy cohomology and present a program on how to relate the twisting of the former to twistings of the latter. (Received September 05, 2006)
