Jim Stasheff* (jds@math.upenn.edu), 146 Woodland Dr, Lansdale, PA 19446-1437. *A compact set of compactified moduli spaces.*

This will be a survey of some of the many different compactifications and the resulting compactified moduli spaces and uses to which they have been put. Audience participation in providing additional examples will be welcome. (Received June 19, 2006)
