Maurice Margenstern* (margens@univ-metz.fr), Université Paul Verlaine - Metz, LITA, UFR MIM, Campus du Saulcy, 57045 METZ, France. *About two tilings of the hyperbolic plane*. Preliminary report.

We shall describe two tilings constructed on the ternary heptagrid of the hyperbolic plane (tessellation 7,3). One is called the mantilla and the other the meadow. They have interesting properties. (Received December 29, 2006)
