**Jozsef Balogh\*** ([jobal@math.uiuc.edu](mailto:jobal@math.uiuc.edu)), Department of Mathematics, 273 Altgeld Hall, 1409 W. Green Street, Urbana, IL 61801. *Bandwidth of grid type of graphs.*

In the recent years there are many new results on bandwidth (including edge-bandwidth) of graphs, in particular of grid type of graphs. In this talk I try to survey (at least my and my collaborators - Bezrukov, Csirik, Harper, Mubayi, Pluhar, Seress, Smyth- contributions to) the subject. (Received January 18, 2007)
