**Jerry Day\*** (jerday@hotmail.com), 301 Thackeray Hall, Department of Mathematics, Pittsburgh, PA 15260, and **Chris Lennard**. *An Introduction to Komlós Sets in Banach Function Spaces*.

The talk will begin with definitions. Then we will briefly look at the subject's history in probability theory. That will inevitably lead to the discussion of results obtained by Dr. Chris Lennard and myself. (Received January 23, 2007)
