**William D Kirwin\*** ([wkirwin@nd.edu](mailto:wkirwin@nd.edu)), Dept. of Mathematics, University of Notre Dame, 255 Hurley Building, Notre Dame, IN 46556, and **Alejandro Uribe**. *The Almost Kahler Quantization of the Thurston Manifold*.

I will speak about the almost Kahler quantization of the Thurston manifold  $M$ . This quantization arises from a study of the spectrum of  $M$ , and is intimately related to the construction of classical Jacobi theta functions. (Received January 23, 2007)
