Benjamin Nill* (nill@math.fu-berlin.de), Mathematisches Institut, Freie Universitaet Berlin, Arnimallee 3, 14195 Berlin, Germany. *Combinatorial aspects of mirror symmetry*.

In this short talk I am going to present results and open questions about the lattice polytopes occuring in the toric mirror symmetry constructions due to Batyrev and Borisov. (Received August 01, 2007)
