**Christopher Dwyer\*** ([dwyer@math.binghamton.edu](mailto:dwyer@math.binghamton.edu)), Department of Mathematical Sciences, Binghamton University, Binghamton, NY , and **Marco Varisco**, Department of Mathematical Sciences, Binghamton University, Binghamton, NY 13902. *Twisted Equivariant K-theory and the Baum-Connes isomorphism conjecture*. Preliminary report.

I will discuss a version of the Baum-Connes isomorphism conjecture involving twisted equivariant  $K$ -theory and how it fits into the general context of the Baum-Connes isomorphism conjecture and the Baum-Connes isomorphism conjecture with coefficients. (Received September 10, 2007)
