Henryk Iwaniec*, Department of Mathematics, 110 Frelinghuysen Rd, Piscataway, NJ
08854-8019. *Recent trends and advances in sieve methods.*

In this talk I will discuss new ideas and potential in modern sieve theory. In particular I will focus on implementations of harmonic analysis to sieve technology. Some applications to diophantine equations will be mentioned. (Received January 21, 2008)
