**David Pollack\*** (dpollack@wesleyan.edu), 265 Church Street, Middletown, CT 06459, and  
**Robert Pollack**, 111 Cummington Street, Boston, MA 02215. *Computations with Overconvergent  
Modular Symbols.*

We will discuss some computations of explicit lifts of classical modular symbols to overconvergent modular symbols. (Received March 02, 2009)
