Peter Vamos (P.Vamos@exeter.ac.uk), Dept of Mathematics, University of Exeter, Exeter, 68502-4042, England, and **Sylvia M Wiegand*** (swiegand@math.unl.edu), 2400 Sheridan Blvd, Lincoln, NE 68502-4042. *Block diagonal matrices and sums of units over Pruefer domains.*

We discuss when a matrix is equivalent to one with blocks of bounded size along the diagonal over certain Pruefer domains. This is related to the problem of writing a square matrix as a sum of invertible matrices. (Received February 14, 2010)
