Alexander P Schuster, San Francisco, CA , and **Dror Varolin***, Department of Mathematics, Stony Brook University, Stony Brook, NY 11794-3651. *Toeplitz Operators on Weighted Bargmann-Fock Space.*

We explore basic properties, such as boundedness, compactness, etc., of Toeplitz operators on weighted Bargmann-Fock spaces of entire functions. We use various L^2 methods to obtain these results. This is work in progress. (Received August 09, 2010)
