E. Odell* (odell@math.utexas.edu), Department of Mathematics, 1 University Station C1200,
Austin, TX 78712. *Renormings and Symmetry Properties of One-Greedy Bases.*

We report on a recent joint paper with S.J.Dilworth, Th. Schlumprecht and A. Zsák. We give examples of 1-greedy bases that are not symmetric and consider certain renorming questions. (Received September 09, 2010)
