

Your charitable commitment fuels excellence in scholarship and research. Here are some gift ideas for your consideration:

Give to the American Mathematical Society

Centennial Fellowship Fund

Providing a one-year fellowship for mathematical research, the Centennial Fellowship is annually awarded to scholars with a strong potential for excellent research. The Centennial Fellowship plays a vital part in fostering outstanding mathematical research.

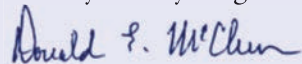

Epsilon Fund

Providing grant support to several distinct programs, the Epsilon Fund enriches the learning experience for hundreds of promising mathematics students every year. The Epsilon Fund realizes the Society's mission to support mathematical education at all levels by encouraging young people to pursue and explore mathematical inquiry and understanding.

Give to the International Mathematical Union

The International Mathematical Union supports mathematics research and scholarship in developing countries for visiting lectures, access to publications, travel, scholarships, and other purposes. The AMS serves as a conduit for gifts to the Friends of the IMU.

Thank you for your generosity!

Donald E. McClure
AMS Executive Director
