 [p] = Price given is for print edition only.

**PRICING NOTES:**

- From 2010 through the present, we report the institutional subscription charge for the smallest subscription package that includes the electronic edition. If an electronic edition is not published, we report the institutional subscription charge for the smallest subscription package that includes the print edition. For 2009 and before, we report the institutional subscription charge for the smallest subscription package that includes the print edition. In many cases, some form of electronic access is also included.  
 - Price columns have been rounded up to the nearest currency value. In order to allow comparisons over time and across journals, yearly prices have been converted to USD within the USD Price columns and are based on currency rates at the end of the preceding calendar year.

**PAGING NOTES:**

- We record paging as given in the journal and take as the last page in a volume the final page, whether a research paper, news or book review.
