# Meetings & Conferences of the AMS

**PROGRAM ALERT:** In order that AMS meeting programs include the most timely information for each speaker, abstract deadlines have been moved to dates much closer to the meeting. What this means is that most meeting programs will appear in the *Notices* **\*after\*** the meeting takes place. However, complete meeting programs will be available on e-MATH about two to three weeks after the abstract deadline. **\*Remember\***, e-MATH is your most comprehensive source for up-to-date meeting information. See <http://www.ams.org/meetings/>.

Based on course materials (now available as a student text "Laboratory in Mathematical Experimentation: A Bridge to Higher Mathematics" and "Instructor's Manual" from Springer Verlag), the workshop introduced participants to the interactive, conversational mode of mathematics teaching the course requires. It also explored opportunities the laboratory course affords to open and restructure the undergraduate mathematics curriculum in ways that enhance student understanding. Participants will present posters on the work they have done at their home institutions incorporating guided student exploration and writing.
