

Meetings & Conferences of the AMS

IMPORTANT NEW PROGRAM INFORMATION: In order that AMS meeting programs include the most timely information for each speaker, abstract deadlines have been moved to dates much closer to the meeting. As a result, Sectional Meeting programs have been appearing in the *Notices* *after* the meeting takes place. The Secretariat of the AMS has observed that this arrangement does not provide an adequate service to the reader. So, beginning with the Gainesville meeting (March 12–13, 1999), AMS Sectional Meeting programs will no longer appear in the print version of the *Notices*. However, prior to the meeting date, comprehensive and continually updated meeting and program information with links to the abstract for each talk can be found on e-MATH. See <http://www.ams.org/meetings/>. Programs and abstracts will continue to be displayed on e-MATH in the Meetings and Conferences section until about three weeks after the meeting is over. Final programs for Sectional Meetings will be archived on e-MATH in the next electronic issue of the *Notices* which follows the meeting. See the entry “Program issue of electronic *Notices*” listed below for each meeting to identify the specific issue.

Joint Program Additions

A Joint Invited Address will be given by **Karl Rubin**, Stanford University, *Ranks of elliptic curves*, Thursday, 11:10 a.m.

Shaping the Principles and Standards for School Mathematics: The Role of Association Review Groups from the Mathematics Community, Saturday, 1:00 p.m. to 2:20 p.m., organized by **Joan Ferrini-Mundy**, Michigan State University. The National Council of Teachers of Mathematics (NCTM) is in the process of updating its standards for school mathematics. The mathematics professional societies were asked to form “association review groups” (ARGs), which provided critical input to the writers, particularly during the 1998–99 academic year, when NCTM released a discussion draft of updated standards for school mathematics for public discussion. This session will discuss the process of collecting, synthesizing, and implementing the advice of the field, with special focus on the input from the ARGs, in producing the final Principles and Standards for School Mathematics, to be released in April 2000. Panelists include **Mary Lindquist**, Columbus State University; **W. Gary Martin**, NCTM; **Kenneth A. Ross**,

University of Oregon, and **John Polking**, Rice University. Cosponsored by the AMS, NCTM, and MAA.

AMS Program Update

The title of the Invited Address by **Sun-Yung Alice Chang** is *Higher order elliptic equations in conformal geometry*.

MAA Program Updates

An MAA Open Discussion on *College Algebra Reform*, Saturday, 1:00 p.m. to 3:00 p.m., organized by **Donald Small**, U.S. Military Academy. There is a growing national movement to reform college algebra programs from the traditional, remedial high school programs to college programs emphasizing elementary data analysis, functions, modeling, and real life applications. The development of new courses, such as the Contemporary College Algebra program will be discussed. The purpose of the session is to bring together those interested in reforming college algebra in order to share ideas.

Stamping through the Millennium has been moved from Saturday to Thursday, 6:30 p.m. to 7:20 p.m.

The Proof of the Four-Color Theorem has been moved from Thursday to Friday, 5:15 p.m. to 6:15 p.m.
