9/19/2007)

College Web Site: www.cuny.cuny.edu

Notice Number: FY13784

Closing Date: Open until filled.

POSITION DESCRIPTION AND DUTIES

The City College of the City University of New York as part of its continuing efforts to achieve the highest quality in teaching and research is making available two new tenure-track positions in one or other of the Department of Mathematics or Computer Science, or the School of Education. These positions will be closely associated with CAISS, the Center for Algorithms and Interactive Scientific Software. CAISS has embarked on a number of projects involving symbolic computation (see our website: www.caissny.org and the associated site www.grouptheory.org). The objective is to build on past efforts culminating in an ongoing, innovative, high-risk, creative, research group with wide-ranging interests.

It is expected that successful applicants will have almost limitless creative license with the expectation that funding from a number of sources, both government and commercial, will flow from these efforts. These positions promise to be extremely exciting opportunities for the right candidates.

Collaboration with the Computer Science and Mathematics Departments and the School of Education, and working on some research with one or two undergraduates will be expected.

Teaching responsibilities will be reduced for the first two years (and possibly the third year) to one course per semester.

QUALIFICATION REQUIREMENTS

A PhD in Mathematics, Computer Science or a closely related field is required. Rank and salary to be determined depending on the experience of the applicant.

Energy, a high degree of programming skills, interest in open source and zero learning curve software, a deep knowledge of the Linux and Microsoft operating systems, evidence of an ability to build and design software, new learning tools and/or academic accomplishments and a willingness to go out on a limb and work very hard are a must.

TO APPLY

Applicants should send a curriculum vitae and at least 3 letters of recommendation to: **Mary Tramel, Mathematics Dept, CAISS NAC 8/133, City College of New York, 160 Convent Ave, New York, NY 10031, E-mail: Mtramel@ccny.cuny.edu.**
