

# NOBODY GETS CLOSER

TO THE PEOPLE. TO THE DATA. TO THE PROBLEM.

At CNA we analyze and solve problems by getting as close as possible to the people, the data and the problems themselves in order to find the answers of greatest clarity and credibility – all to help government leaders choose the best course of action.

We have a professional, diverse staff of over 600 people working in a variety of critical policy areas – such as national security, homeland security, healthcare and education – and offer career opportunities for people with degrees in engineering, mathematics, economics, physics, chemistry, international relations, national security, history, and many other scientific and professional fields of study.

Diverse views, objectivity, imaginative techniques, process driven, results oriented, committed to the common good. Join us.
