

About the Cover

Creativity issue

This issue is dedicated to mathematics and its interaction with art. The peacock's tail is intended to represent this symbiosis.

The cover photo was taken by mathematician-photographer Geir Arne Hjelle at De Apenheul zoo just outside Apeldoorn, Netherlands.

The cover image was composed using GIMP (GNU Image Manipulation Program) freeware. See <http://www.gimp.org/>. The cover concept and design are by Geir Arne Hjelle and Marie Taris.
