IAMCS-KAUST

Postdoctoral Fellowships

http://www.iamcs.tamu.edu/postdoctoral_fellows.php

The **Institute for Applied Mathematics and Computational Science (IAMCS)** at Texas A&M University is pleased to invite applications for its **IAMCS-KAUST Postdoctoral Fellowships**. Current and upcoming annual themes include mathematical and computational challenges in 1) Material Science and Engineering, 2) the Life Sciences and 3) Earth Sciences. IAMCS Postdoctoral candidates should have demonstrated interest and involvement in interdisciplinary research, and successful candidates will be encouraged to participate in the annual theme activities and to establish research collaborations exploring theme year topics.

IAMCS-KAUST Postdoctoral Fellowships at Texas A&M University are two year appointments with the possibility of extension to a third year. The fellowship stipend is \$53K over 12 months plus fringe benefits. Interested individuals should submit their application materials (CV, research statement and three letters of recommendation) to the email address iamcs@tamu.edu by 15 December 2010. IAMCS intends to select up to four IAMCS-KAUST Fellows.

Texas A&M University is an equal opportunity employer. The University is dedicated to the goal of building a culturally diverse and pluralistic faculty and staff committed to teaching and working in a multicultural environment and strongly encourages applications from women, minorities and individuals with disabilities.
