

American Mathematical Society Distribution Center  
 35 Monticello Place, Pawtucket, RI 02861 USA

What if Newton saw an apple *as just an apple?*

Mac is a registered trademark of Apple, Inc.

Would we have his laws of gravity? That's the power of seeing things in different ways. When it comes to TI technology, look beyond graphing calculators.

**Think TI-Nspire™ Computer Software for PC or Mac®.**

- » *Software that's easy to use.* Explore higher order mathematics and dynamically connected representations on a highly intuitive, full-color user interface.
- » *Software that's easy to keep updated.* Download the latest enhancements from TI's Web site for free.
- » *Software you can learn to use quickly.* Get familiar with the basics in under an hour. No programming required.

**Take a closer look at TI-Nspire software and get started for free.**
