MATHEMATICS AT THE NATIONAL SECURITY AGENCY

Make a calculated difference with what you know.

Tackle the coolest problems ever.

You already know that mathematicians like complex challenges. But here's something you may not know.

The National Security Agency is the nation's largest employer of mathematicians. In the beautiful, complex world of mathematics, we identify structure within the chaotic and patterns among the arbitrary.

Work with the finest minds, on the most challenging problems, using the world's most advanced technology.
