

Mathematical Opportunities in France

The French network of Centres of Excellence, LabEx, will be offering several scholarships, fellowships, and visiting research positions to selected national and international graduate students, postdoctoral fellows and senior researchers, who are considering to join any one of its affiliated laboratories throughout France. For details please visit:

<http://labex.math.cnrs.fr/>

In particular, more than 40 research postdoctoral fellowships will be offered for the year 2015-16. For more information please visit:
