## From the Public Awareness Office

### 2014 AMS Einstein Public Lecture in Mathematics.

JAMES SIMONS, chairman of the Simons Foundation,

gave the lecture “Mathematics, Common Sense, and Good Luck”

at the AMS Fall Western Sectional Meeting at San Francisco State University. He ruminated on the three intertwining subjects of his careers—mathematics, finance, and philanthropy—and afterward met some AMS-Simons Travel Grant recipients. See the website [www.ams.org/meetings/lectures/einstein-2014](http://www.ams.org/meetings/lectures/einstein-2014). The 2015 Einstein Public Lecture will take place on March 7 at the Spring Eastern Sectional Meeting at Georgetown University.

## EMS Monograph Award

The EMS Monograph Award is assigned every two years to the author(s) of a monograph in any area of mathematics that is judged by the selection committee to be an outstanding contribution to its field. The prize is endowed with 10,000 Euro and the winning monograph will be published by the EMS Publishing House in the series “EMS Tracts in Mathematics”.

The first award was announced in the June 2014 issue of the Newsletter of the EMS.

The second award will be announced in 2016, the deadline for submissions is 30 June 2015.

### Submission of manuscripts

The monograph must be original and unpublished, written in English and should not be submitted elsewhere until an editorial decision is rendered on the submission. Monographs should preferably be typeset in TeX. Authors should send a pdf file of the manuscript by email to:

awards@ems-ph.org

### Scientific Committee

John Coates, Pierre Degond, Carlos Kenig, Jaroslav Nešetřil, Michael Roeckner, Vladimir Turaev

## EMS Tracts in Mathematics

Editorial Board:

This series includes advanced texts and monographs covering all fields in pure and applied mathematics. Tracts will give a reliable introduction and reference to special fields of current research. The books in the series will in most cases be authored monographs, although edited volumes may be published if appropriate.

They are addressed to graduate students seeking access to research topics as well as to the experts in the field working at the frontier of research.
