

PROCEEDINGS
OF THE
AMERICAN MATHEMATICAL SOCIETY

EDITED BY

GUSTAV A. HEDLUND

G. P. HOCHSCHILD

A. C. SCHAEFFER

WITH THE ASSISTANCE OF

C. B. ALLENDOERFER

P. T. BATEMAN

R. H. BING

J. B. DIAZ

N. J. FINE

A. W. GOODMAN

I. M. SHEFFER

MAX SHIFFMAN

E. H. SPANIER

VOLUME 2, NUMBER 5
OCTOBER, 1951

PUBLISHED BY THE SOCIETY
MENASHA, WIS., AND PROVIDENCE, R. I.

CONTENTS

(Continued from back cover)

The Wedderburn Principal Theorem in Banach algebras. By CHESTER FELDMAN.....	771
A characterization of simply connected closed arcwise convex sets. By F. A. VALENTINE.....	778
Convex bodies associated with a convex body. By P. C. HAMMER.....	781
Families of Lorentzian matrices. By C. C. MACDUFFEE.....	794
Recurrence and incompressibility. By C. W. WILLIAMS.....	798
On the embedding of topological semigroups and integral domains. By B. GELBAUM, G. K. KALISCH, and J. M. H. OLMSTED.....	807
Two-dimensional subgroups. By DEANE MONTGOMERY and LEO ZIPPIN.....	822
A note of correction. By E. E. MOISE.....	838

The PROCEEDINGS OF THE AMERICAN MATHEMATICAL SOCIETY is published bimonthly, in February, April, June, August, October, and December. Price per annual volume is \$11.00. Subscriptions, orders for back numbers, and inquiries in regard to nondelivery of current numbers should be addressed to the American Mathematical Society, 450 Ahnaip Street, Menasha, Wis., or 80 Waterman Street, Providence 6, R. I.

Entered as second-class matter at the post office at Menasha, Wisconsin. Authorization is granted under the authority of the act of August 24, 1912, as amended by the act of August 4, 1947 (sec. 34.21, P. L. & R.).

The price to members of the American Mathematical Society is 25% less than list.
Volumes which are not listed above are out of print.

CONTENTS

Vol. 2, No. 5

OCTOBER, 1951

Whole No. 11

	Page
On Rouché's theorem and the integral-square measure of approximation. By J. L. WALSH.....	671
Note on the location of the critical points of a real rational function. By J. L. WALSH.....	682
A theorem for kernel functions. By PHILIP DAVIS and HENRY POLLAK.....	686
Remark on the Hurwitz zeta function. By T. M. APOSTOL....	690
Some theorems on meromorphic functions. By S. M. SHAH....	694
Linear difference equations with periodic coefficients. By A. A. GNANADOSS.....	699
Self-adjoint factorizations of differential operators. By K. S. MILLER.....	704
On the integration scheme of Maréchal. By EMIL GROSSWALD..	706
On the density theorem. By A. PAPOULIS.....	709
Polynomial iterations to roots of algebraic equations. By A. S. HOUSEHOLDER.....	718
A nonabsolute basis for Hilbert space. By B. GELBAUM.....	720
An extension of a result of Liapounoff on the range of a vector measure. By HERMAN CHERNOFF.....	722
Approximate isometries in bounded spaces. By R. L. SWAIN....	727
A note on the summability of infinite series by sequence to sequence and series to sequence transformations. By O. W. RECHARD.....	730
On the distribution of the values of the partial sums of a Taylor series. By V. F. COWLING.....	732
Norms of matrix type for the spaces of convergent and bounded sequences. By ALBERT WILANSKY.....	738
The use of bilinear mappings in the classification of groups of class 2. By N. J. S. HUGHES.....	742
A short proof of an identity of Euler. By DANIEL SHANKS....	747
On the representation of integers by sums of polynomials. By L. KUIPERS.....	750
Functions which represent prime numbers. By IVAN NIVEN....	753
A general dependence relation for lattices. By D. T. FINKBEINER.....	756
Systems of diophantine equations. By A. A. AUCOIN.....	760
A Boolean algebra without proper automorphisms. By BJARNI JÓNSSON.....	766

(Continued on inside front cover)

Articles for insertion in the Proceedings should be typewritten, double spaced, and the author should keep a complete copy. Papers in algebra and theory of numbers should be sent to G. P. HOCHSCHILD, Leet Oliver Memorial Hall, Yale University, New Haven 11, Conn.; in analysis to A. C. SCHAEFFER, North Hall, University of Wisconsin, Madison 6, Wis.; in other fields to G. A. HEDLUND, Leet Oliver Memorial Hall, Yale University, New Haven 11, Conn. All other communications to the editors should be addressed to the Managing Editor, G. A. HEDLUND, Leet Oliver Memorial Hall, Yale University, New Haven 11, Conn.
