

PROCEEDINGS  
OF THE  
AMERICAN MATHEMATICAL SOCIETY

EDITED BY

GUSTAV A. HEDLUND

G. P. HOCHSCHILD

A. C. SCHAEFFER

WITH THE COÖPERATION OF

C. B. ALLENDOERFER

P. T. BATEMAN

J. B. DIAZ

N. J. FINE

A. W. GOODMAN

BJARNI JÓNSSON

MAX SHIFFMAN

E. H. SPANIER

A. E. TAYLOR

VOLUME 3, NUMBER 2

APRIL, 1952

PUBLISHED BY THE SOCIETY  
MENASHA, WIS., AND PROVIDENCE, R. I.

**Journals Published by the  
American Mathematical Society**

---

---

**Bulletin of the American Mathematical Society**

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings, with abstracts of all research papers presented. It contains some of the officially invited addresses presented before the Society. It contains also announcements and notes on matters of current interest, and reviews of advanced mathematical books.

One volume of six numbers is planned for 1952. The subscription price is \$7.00. Sets of volumes of the BULLETIN are available as follows: vols. 1-36 (1894-1930), \$7.00 each; vols. 37-53 (1931-1947), \$9.00 each; vols. 54-55 (1948-1949), \$11.00 each; vols. 56-57 (1950-1951), \$7.00 each.

**Proceedings of the American Mathematical Society**

This journal is devoted entirely to research in pure and applied mathematics, and is devoted principally to the publication of original papers of moderate length. Volume 1 appeared in 1950.

One volume of six numbers is planned for 1952. The subscription price is \$11.00. Vols. 1-2 (1950-1951) are available at the price of \$11.00 each.

**Transactions of the American Mathematical Society**

This journal is devoted entirely to research in pure and applied mathematics, and includes in general longer memoirs than the PROCEEDINGS.

Normally, two volumes of three numbers each are published annually. The price per volume is \$6.00. Volumes 1-36 (1900-1934) consist of four numbers each. Volumes 66-67 (1949) consist of two numbers each. Sets of volumes are available as follows: vols. 1-21 (1900-1920), \$7.00 each; vols. 22-32 (1921-1930), \$8.00 each; vols. 33-36 (1931-1934), \$9.00 each; vols. 37-71 (1935-1951), \$6.00 each.

**Mathematical Reviews**

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored by thirteen mathematical organizations, located both in the United States and abroad.

The publication of MATHEMATICAL REVIEWS was begun in 1940. It appears monthly, excepting July, and the price per annual volume is \$20.00. Orders for complete volumes only are accepted. Volumes 1-12 (1940-1951) are available at \$20.00 per volume.

---

---

The PROCEEDINGS OF THE AMERICAN MATHEMATICAL SOCIETY is published bimonthly, in February, April, June, August, October, and December. Price per annual volume is \$11.00. Subscriptions, orders for back numbers, and inquiries in regard to nondelivery of current numbers should be addressed to the American Mathematical Society, 450 Ahnaip Street, Menasha, Wis., or 80 Waterman Street, Providence 6, R. I.

Entered as second-class matter at the post office at Menasha, Wisconsin. Authorization is granted under the authority of the act of August 24, 1912, as amended by the act of August 4, 1947 (sec. 34.21, P. L. & R.). Acceptance for mailing at the special rate of postage provided for in section 35.40 paragraph d, P. L. & R.

Copyright, American Mathematical Society, 1952

Printed in the United States of America

**Memoirs**

9. I. E. Segal, <b>Decompositions of operator algebras. I and II</b> , 1951, 67+66 pp.	\$1.80
8. J. W. T. Youngs, <b>The representation problem for Fréchet surfaces</b> , 1951, 143 pp.	1.80
7. R. V. Kadison, <b>A representation theory for commutative topological algebra</b> , 1951, 39 pp.	1.00
6. K. L. Chung, M. D. Donsker, P. Erdős, W. H. J. Fuchs, and M. Kac, <b>Four papers on probability</b> , 1951, ii, 12+19+11+12 pp.	1.20
5. O. Zariski, <b>Theory and applications of holomorphic functions on algebraic varieties over arbitrary ground fields</b> , 1951, 90 pp.	1.40
4. K. Ito, <b>On stochastic differential equations</b> , 1951, 51 pp.	1.00
3. H. D. Ursell and L. C. Young, <b>Remarks on the theory of prime ends</b> , 1951, 29 pp.	1.00
2. J. Dieudonné, <b>On the automorphisms of the classical groups</b> , with a supplement by L. K. Hua, 1951, viii, 122 pp.	1.80
1. G. T. Whyburn, <b>Open mappings on locally compact spaces</b> , 1950, ii, 25 pp.	.75

The price to members of the American Mathematical Society is 25% less than list.  
Volumes which are not listed above are out of print

# CONTENTS

Vol. 3, No. 2

APRIL, 1952

Whole No. 14

	Page
A remark on the $\alpha + \beta$ theorem. By LUTHER CHEO.....	175
On extensions of difference fields and the resolvents of prime difference ideals. By R. M. COHN.....	178
Orthogonality relation for Frobenius- and quasi-Frobenius-algebras. By TADASI NAKAYAMA.....	183
Elementary proof of a norm theorem. By HARLEY FLANDERS.	196
A remark on Kronecker's theorem on forms. By HARLEY FLANDERS.....	197
Note on determinants of sines and cosines. By E. G.-RODEJA F.	198
Fields of values of a matrix. By WALLACE GIVENS.....	206
On cubic equations $z^2 = f(x, y)$ with an infinity of integer solutions. By L. J. MORDELL.....	210
On the set of values of a nonatomic, finitely additive, finite measure. By R. J. NUNKE and L. J. SAVAGE.....	217
Mean convergence of orthogonal series. By JEROME NEWMAN and WALTER RUDIN.....	219
On the methods of Rayleigh-Ritz-Weinstein. By C. ARF.....	223
On some functions holomorphic in an infinite region. By C. Y. YU.....	232
Generalizations of a theorem of Sierpinski and Zygmund on continuous functions. By C. J. PIPES.....	237
On a converse of Abel's theorem. By AMNON AMIR (JAKIMOVSKI)	244
On products of summability methods. By OTTO SZÁSZ.....	257
A note on indefinite integrals. By J. D. HILL.....	263
On invariant subspaces of normal operators. By JOHN WERMER.	270
A uniqueness theorem for a class of harmonic functions. By A. J. LOHWATER.....	278
A remark on characteristics. By M. H. MARTIN.....	280
Moments which are integers. By R. M. REDHEFFER.....	282
Differentiation with respect to $\phi$ -pseudo-strong blankets and related problems. By C. A. HAYES.....	283
On the Sheffer A-type of polynomials generated by $\phi(t)f(xt)$ . By W. N. HUFF and E. D. RAINVILLE.....	296
A theorem on conjugate nets in projective hyperspace. By P. O. BELL.....	300
An extension of renewal theory. By K. L. CHUNG and HARRY POLLARD.....	303
On the distribution of a convex even function of several independent rounding-off errors. By H. P. MULHOLLAND.....	310
A note on everywhere dense subgroups. By B. J. PETTIS.....	322
Spaces of mappings on topological products with applications to homotopy theory. By J. R. JACKSON.....	327
A theorem on involutory transformations without fixed points. By AMASA FORRESTER.....	333

---

Articles for insertion in the Proceedings should be typewritten, double spaced, and the author should keep a complete copy. Papers in algebra and theory of numbers should be sent to G. P. HOCHSCHILD, Leet Oliver Memorial Hall, Yale University, New Haven 11, Conn.; in analysis to A. C. SCHAEFFER, North Hall, University of Wisconsin, Madison 6, Wis.; in other fields to G. A. HEDLUND, Leet Oliver Memorial Hall, Yale University, New Haven 11, Conn. All other communications to the editors should be addressed to the Managing Editor, G. A. HEDLUND, Leet Oliver Memorial Hall, Yale University, New Haven 11, Conn.
