VOLUME 10, NUMBER 1

FEBRUARY, 1959

PUBLISHED BY THE SOCIETY
MENASHA, WIS., AND PROVIDENCE, R. I.

Journals Published by the American Mathematical Society

Bulletin of the American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and details of its meeting. It contains some of the officially invited addresses presented before the Society, research announcements and problems, and reviews of advanced mathematical books.

One volume of six numbers is planned for 1959. The subscription price is \$7.00. The prices of back volumes, insofar as they are available, are as follows: vols. 1-27, 29 (1894-1921, 1923), \$23.50 each; vol. 28 (1922), \$19.70; vols. 30-35 (1924-1929), \$20.00 each; vols. 36-55 (1930-1949), \$28.00 each; vols. 56-63 (1950-1958), \$14.00 each.

Proceedings of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and is devoted principally to the publication of original papers of moderate length. Volume 1 appeared in 1950.

Articles for insertion in the PROCEEDINGS should be typewritten, double spaced, and the manuscript should not exceed 12 pages. The greatest possible care should be taken in preparing the manuscript and if necessary The Manual for Authors published by the Society should be consulted. The authors should keep a complete copy.

Papers in algebra and number theory should be sent to IRVING KAPLANSKY, Eckhart Hall, University of Chicago, Chicago 37, Ill.; in probability, real variables, logic and foundations to P. R. HALMOS, Eckhart Hall, University of Chicago, Chicago 37, Ill.; in abstract analysis to either P. R. HALMOS or IRVING KAPLANSKY; in geometry and topology to HANS SAMELSON, Department of Mathematics, University of Michigan, Ann Arbor, Mich.; in other branches of analysis, applied mathematics and all other fields to R. P. BOAS, Lunt Building, Northwestern University, Evanston, Ill. All other communications to the editors should be addressed to the managing editor, IRVING KAPLANSKY.

One volume of six numbers is planned for 1959. The subscription price is \$11.00. Vols. 1-8 (1950-1958) are available at the price of \$14.00 each.

Transactions of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and includes in general longer memoirs than the PROCEEDINGS.

Four volumes of three numbers each will be published in 1959. The price per volume is \$8.00. Volumes 1-36 (1900-1934) consist of four numbers each. Volumes 66-67 (1949) and 78-88 (1955-1958) consist of two numbers each. All other volumes consist of three numbers each. The prices of back volumes, insofar as they are available, are as follows: vols. 1-36 (1900-1934), \$16.00 each; vols. 37-65, 68-77 (1934-1954), \$12.00 each; vols. 66, 67, 78-89 (1949, 1955-1958), \$8.00 each.

Mathematical Reviews

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored by thirteen mathematical organizations, located both in the United States and abroad.

The publication of MATHEMATICAL REVIEWS was begun in 1940. It appears monthly, excepting July, and the price per annual volume is \$50.00. Orders for complete volumes only are accepted. Volumes 10 and 17 are not available. Volumes 1-9, 11-16 and 18 are available at the following prices: Vols. 1-14 (1940-1953), \$24.00 each; all other volumes \$50.00.

THE PROCEEDINGS OF THE AMERICAN MATHEMATICAL SOCIETY is published bimonthly, in February, April, June, August, October, and December. Price per annual volume is \$11.00. Subscriptions, orders for back numbers, and inquiries in regard to nondelivery of current numbers should be addressed to the American Mathematical Society, Curtis Reed Plaza, Menasha, Wis., or 190 Hope Street, Providence 6, R. I.

Entered as second-class matter at the post office at Menasha, Wisconsin. Authorization is granted under the authority of the act of August 24, 1912, as amended by the act of August 4, 1947 (sec. 34.21, P. L. & R.). Acceptance for mailing at the special rate of postage provided for in section 35.40, paragraph d., P. L. & R. Second-class postage paid at Menasha, Wisconsin.

CONTENTS

Vol. 10, No. 1

FEBRUARY, 1959

Whole No. 55

	Page
On generalized group algebras. By ALVIN HAUSNER.....	1
A note on derivations of Lie algebras II. By G. F. LEGER.....	10
Convergence of continued fractions of Stieltjes type. By D. F. DAWSON	12
Irreducible congruences over $GF(p)$. By C. B. HANNEKEN.....	18
On the semisimplicity of group algebras, II. By O. E. VILLAMAYOR...	27
Linear operator equations. By GUNTER LUMER and MARVIN ROSEN- BLUM.....	32
Representation theorems for certain Boolean algebras. By R. S. PIERCE	42
A maximum modulus property of maximal subalgebras. By PAUL CIVIN.....	51
Infinite dimensional quadratic forms over algebraic number fields. By O. T. O'MEARA.....	55
Sur la représentation intégrale des certaines opérations linéaires. III. By NICOLAE DINCULEANU.....	59
On a divergent trigonometrical series given by Steinhaus. By SIOBHAN O'SHEA.....	68
A note on conjugate functions. By JOHN LAMPERTI.....	71
A geometric construction of the M -space conjugate to an L -space. By C. C. BRAUNSCHWEIGER.....	77
On $u'' + (1 + \lambda g(x))u = 0$ for $\int_0^\infty g(x) dx < \infty$. By R. R. D. KEMP and NORMAN LEVINSON.....	82
Some distortion theorems for multivalent mappings. By H. J. LANDAU and R. OSSERMAN.....	87
On criteria of Kasahara and Blumenthal for inner-product spaces. By M. M. DAY.....	92
A derivative for Hausdorff-analytic functions. By W. O. PORTMANN..	101
Continuous homomorphic images of real clans with zero. By HASKELL COHEN and I. S. KRULE.....	106
On Green's theorem. By P. J. COHEN.....	109
On almost periodic solutions of a class of differential equations. By G. H. MEISTERS.....	113
On unions of chains of models. By C. C. CHANG.....	120
Average initial velocity of the terminus of a two-dimensional linkage. By R. G. LANGEBAEDEL.....	128
The structure of translation half rings in Euclidean spaces. By P. H. MASERICK.....	133
The fundamental group of one-dimensional spaces. By M. L. CURTIS and M. K. FORT, JR.....	140
On essential fixed points. By J. M. MARR.....	148
A class of unknotted curves in 3-space. By R. E. CHAMBERLIN.....	149
On primary ideals in $C(X)$. J. G. HORNE, JR.....	158
Remarks on complex contact manifolds. By SHOSHICHI KOBAYASHI..	164
Fixed points for multi-valued functions on snake-like continua. By R. H. ROSEN.....	167
Errata and Addenda to Volume 9.....	174
