

Corrections to the 2003 Annual Survey of the Mathematical Sciences (First Report)

An incorrect percentage was quoted in the “Highlights” on page 219 of the February 2004 issue of *Notices of the AMS*. The correct highlight should read:

Group IV produced 239 new doctorates, of which 98 (41%) are females, compared to all other groups combined, where 206 (26%) are females. In group IV 109 (46%) of the new doctoral recipients are U.S. citizens (while in the other groups 49% are U.S. citizens).

Table 3 on page 220 should have reported total full-time graduate students for 2002 as 9,972 (the figure 997 appeared incorrectly in the printed table).
