

Preliminary Report on the 2014–2015 New Doctoral Recipients

Thomas Barr and Colleen Rose

This report presents a brief statistical profile of recipients of doctoral degrees awarded by departments in the mathematical sciences at universities in the United States during the period July 1, 2014 and June 30, 2015. It is preliminary in the sense that, as of November 1, 2015, not all departments have responded to the survey instrument through which data is collected. A list of the nonresponding departments is presented below.

Data collected to this point shows that 1,696 new PhDs were awarded by the 271 mathematical sciences departments that responded in time for this report. Some attributes of the data are:

- 1,189 Males
- 507 Females
- 1,185 in Mathematics
- 780 US citizens
- 916 non-US citizens
- 511 in Statistics/Biostatistics
- 74% are US employed
- 26% are Non-US employed
- 49% of those employed in the US are US citizens

Based on the data collected so far, it is likely that the final count of PhDs awarded during 2014–2015 will be slightly higher than the number (1,926) reported for 2013–2014.

Once data collection is concluded, a more detailed final report will be published in the August 2016 issue of *Notices*.

Doctoral Degrees Not Yet Reported

As of press time for this issue of *Notices*, the following departments had not yet responded to the survey. Every effort will be made to collect responses for inclusion in the New Doctoral Recipients Report. In order to be included in the final report, Doctorates Granted survey forms should be sent no later than March 4, 2016. Departments yet to respond can obtain copies of the Doctorates Granted survey forms by visiting www.ams.org/annual-survey/surveyforms, emailing ams-survey@ams.org, or calling 1-800-321-4267, ext. 4189.

Mathematics Departments

Bryn Mawr College
 Cornell University, Center for Applied Mathematics
 Dartmouth College
 Illinois State University
 New York University Polytechnic School of Engineering
 Northeastern University
 Ohio State University, Columbus
 Texas Tech University
 University of California, Merced, School of Natural Sciences
 University of California, Santa Cruz, Applied Mathematics & Statistics
 University of Hawaii at Manoa
 University of Nevada, Las Vegas
 University of Notre Dame
 University of Oklahoma
 Utah State University

North Carolina State University, Statistics
 Northwestern University, Statistics
 Ohio State University, Columbus, Statistics
 Oklahoma State University, Statistics
 Rutgers School of Public Health, Biostatistics
 University of Alabama-Tuscaloosa, Information Systems
 Statistics & Management Science Department
 University of Albany, SUNY, Epidemiology & Biostatistics
 University of California, Los Angeles, Biostatistics, Fielding School of Public Health
 University of California, Los Angeles, Statistics
 University of Cincinnati, Medical College, Epidemiology & Biostatistics Division
 University of Colorado, Denver, Biostatistics & Informatics
 University of Florida, Statistics
 University of Illinois at Chicago, Epidemiology & Biostatistics Division
 University of Illinois, Urbana-Champaign, Statistics
 University of Kentucky, Biostatistics
 University of Louisville, Bioinformatics & Biostatistics
 University of Minnesota-Twin Cities, School of Statistics
 University of North Texas School of Public Health, Biostatistics
 University of Pennsylvania, Epidemiology & Biostatistics
 University of South Carolina, Epidemiology & Biostatistics
 Vanderbilt University, School of Medicine, Biostatistics
 Virginia Commonwealth University, Medical Center, Biostatistics
 Virginia Polytechnic Institute and State University, Statistics
 Yale University, Statistics

Statistics & Biostatistics Departments

Baylor University, Statistical Sciences
 Columbia University, Biostatistics
 Cornell University, Biological Statistics & Computational Biology
 Duke University, Statistical Science
 George Washington University, Statistics
 Indiana University, Bloomington, Statistics
 Iowa State University, Statistics
 LSU Health Science Center, New Orleans, Biostatistics
