

Annual Survey: 2009-2010 Faculty Recruitment & Hiring

1. Introduction

This survey asks you to provide information on the full-time positions requiring a doctorate (tenured, tenure-track, postdoctoral, etc.) that were under recruitment during the academic year 2009-2010 for employment beginning in the fall of 2010. The data you provide on this survey will allow us to publish a comprehensive picture of last year's academic job market in mathematics.

For most departments the survey will require less than ten minutes to complete. You are permitted to work on the survey, exit the survey, and then return to complete the survey at a later time; previously entered responses are preserved.

This survey is part of the Annual Survey of the Mathematical Sciences, a series of surveys of U.S. departments of mathematics and/or statistics conducted under the auspices of AMS, ASA, IMS, MAA and SIAM.

2. Positions Under Recruitment during AY 2009-2010

1. Did your department seek to fill any full-time positions requiring a doctorate during academic year 2009-2010?

No

Yes

3. Details on Positions Under Recruitment

This page of the survey asks you to report details on the full-time positions requiring a doctorate that were under recruitment during 2009-2010.

2. Please report the number of these positions under recruitment during academic year 2009-2010.

3. For the positions reported in Question 2:

Number

3.1 How many were tenured or tenure-track?

3.2 How many were non-tenure-track?

3.3 How many were at the associate/full professor level?

3.4 How many were open to new doctoral recipients?

3.5 How many were open to new doctoral recipients and also tenure-track?

3.6 How many were for only one academic year?

4. How many of the positions reported in Question 2 were filled?

Annual Survey: 2009-2010 Faculty Recruitment & Hiring

5. How many of the positions reported in Question 2 were not filled? (Include here any positions reported in Question 2 that were withdrawn from recruitment.)

4. Appointments to Positions Under Recruitment

For the remainder of the survey, we ask you to report on the appointments your department made for the positions under recruitment during 2009-2010.

6. Did your department make any tenured or tenure-track appointments?

No

Yes

5. Report on Tenured & Tenure-track Appointments

7. Among the individuals who received the tenured or tenure-track appointments:

	Female	Male
7.1 How many were NEW doctoral recipients? (Individuals who had held their doctorate less than one year as of September 1, 2010, plus anyone who expects to receive their doctorate by July 1, 2011.)	<input type="text" value="6"/>	<input type="text" value="6"/>
7.2 How many had held their doctorate one or more years as of September 1, 2010?	<input type="text" value="6"/>	<input type="text" value="6"/>
7.3 Of those just reported in 7.2, how many held a postdoctoral position the previous year?	<input type="text" value="6"/>	<input type="text" value="6"/>
7.4 Of those just reported in 7.2, how many held a non-tenure-track position other than a postdoc?	<input type="text" value="6"/>	<input type="text" value="6"/>

6. Non-Tenure-track Appointments

8. Did your department make any non-tenure-track appointments?

Yes

No

7. Report on Non-tenure-track Appointments

Annual Survey: 2009-2010 Faculty Recruitment & Hiring

9. Among the individuals who received non-tenure-track appointments:

	Female	Male
9.1 How many were new doctoral recipients? (Individuals who had held their doctorate less than one year as of September 1, 2010, plus anyone who expects to receive their doctorate by July 1, 2011.)	<input type="text" value="6"/>	<input type="text" value="6"/>
9.2 How many had held their doctorate one or more years as of September 1, 2010?	<input type="text" value="6"/>	<input type="text" value="6"/>
9.3 How many did not hold the doctoral degree as of September 1, 2010, nor expect to receive their doctoral degree by July 1, 2011?	<input type="text" value="6"/>	<input type="text" value="6"/>
9.4 How many were appointed for a single academic year with the expectation that their position would be re-advertised for recruitment during 2010-2011?	<input type="text" value="6"/>	<input type="text" value="6"/>

10. Among the individuals who received non-tenure-track appointments, how many were appointed to a postdoctoral position?

For this survey, a non-tenure-track appointment is considered a postdoctoral appointment provided a) it is for a term of two or three years, b) it is intended for a new or recent Ph.D. and c) it is primarily intended to provide an opportunity to extend graduate training or to further research experience.

	Female	Male
Report the number of postdoctoral appointments.	<input type="text" value="6"/>	<input type="text" value="6"/>

8. Contact Information

The survey staff at AMS along with the members of the Joint Data Committee sincerely appreciate your taking the time to complete this survey.

11. Please provide us with contact information for the individual completing this survey in case we have questions.
