Annual Survey of the Mathematical Sciences

AMS · ASA · IMS · MAA · SIAM

Have a question? call AMS at 800-321-4267, ext. 4124
or Email: ams-survey@ams.org

Department address:

This survey asks you to provide information on FULL-TIME positions requiring a doctorate (tenure-track and non-tenure-track, including postdoctoral positions, instructors, lectures, etc.) that were under recruitment during the academic year 2010-2011 for employment beginning in the fall of 2011. The data you provide on this survey will allow us to publish a comprehensive picture of last year's academic job market in Mathematics.

You will be asked to report on positions under recruitment and on positions filled in two disjoint categories: tenure-track positions and non-tenure-track positions. Throughout this survey, the term "tenure-track position" includes positions that carry tenure with appointment to the position as well as any position where an appointment carries eligibility to earn tenure.

Positions Under Recruitment during AY 2010-2011

1) Did your department seek to fill any full-time positions requiring a doctorate during the academic year 2010-2011?

No
Yes....

Please report on the full-time positions requiring a doctorate that were under recruitment during 2010-2011, reporting separately for tenure-track versus non-tenure-track positions.

2) Please report the total number of full-time positions under recruitment during academic year 2010-2011. (If none, enter zero.)

2.1) Tenure-track positions.
2.2) Non-tenure-track positions.....

3) For the tenure-track position(s) just reported in Question 2.1 (If none, enter zero.)

3.1) How many were open to new doctoral recipients?.....
3.2) How many were at the associate/full professor level?
