

AMS Book and Journal Donation Program Donation #49

Problems and Examples in Differential Equations, Volume 164

Matrices Over Commutative Rings, Volume 169

Linear Geometry With Computer Graphics, Volume 170

Conditional Measures and Applications, Volume 177

Optimal Control of Nonlinear Parabolic Systems, Volume 179

Differential Equations, Volume 180

Monotone Iterative Techniques For Discontinuous Nonlinear
Differential Equations, Volume 181

Exponential Stability of Stochastic Differential Equations, Volume 182

Histoire D'Algorithmes

Comprendre les mathematiques

Common zeros of polynomials in several variables and higher
dimensional quadrature, Volume 312

Asymptotic theories for plates and shells, Volume 319

Topics in abstract differential equations (2 COPIES), Volume 321

Recent developments in evolution equations, Volume 324

Elliptic and parabolic problems, Volume 325

Calculus of variations, applications and computations, Volume 326

Seminaires and Congres, Volume 4

Advanced Studies in Pure Mathematics, Volume 23

Fractals-Users guide for the Natural Sciences

Chebyshev systems and the versal unfolding of the cusp of order "N"
Analysis of the K-Epsilon Turbulence Model

Shu Xue Yu Si Wei

Graphs and Digraphs

AMS Book and Journal Donation Program Donation #49

Introduction to Theoretical and Computational Fluid Dynamics

The Power of Visualization

Foundation Maths

WEAKLY DEPENDENT STOCHASTIC SEQUENCES AND THEIR APPLICATIONS

Summation Theory for Weakly Dependent Sequences, Volume 1

Asymptotic Statistics based on Weakly Dependent Data, Volume 2

Order Statistics based on Weakly Dependent Data, Volume 3

Curve Estimation based on Weakly Dependent Data, Volume 4

Estimators based on time series (2 COPIES), Volume 5

Mixing Stochastic Differential Equations (2 COPIES), Volume 8

5 SMALL RUSSIAN ENGLISH DICTIONARIES

Number Theory, Invariants, and Applications, Volume 2

Mathematics People, Problems, Results; Volume 1, 2 and 3

First Intercontinental Symposium on Domain Decomposition Methods
for Partial Differential Equations

ICIAM 87: Proceedings of the First International Conference on
Industrial and Applied Mathematics

Modelling Frequency and Count Data

Parametric Statistical Inference

Strong Discontinuities in Magnetohydrodynamics

Partial Differential Equations

Applications of Discrete Mathematics

Complex numbers

Methods and Tools for Applied Artificial Intelligence

AMS Book and Journal Donation Program Donation #49

Symmetric Properties of Real Functions
Volume 1 Abstract Algebra with Applications

Volume 2 Abstract Algebra with Applications

King of Infinite Space

Loop Groups

Numbers and Shapes Revisited

Introductory Statistics, A Modeling Approach

Differentiation & Integration

Fourier Series

Science and Technology of the Republic of Belarus

A 3 and His Algebra

Analysis of Algorithms

Random Graphs

Cosmology in (2+1) Cyclic Models and Deformations of M_2

Knots and Surfaces

Frynman and Computation

Linear Algebra

New Theory of Calculus and Singular Integrals

Temporal Logic

Topics in Nonlinear Dynamics with Computer Algebra

Foundations of Analysis in the Complex Domain

Counterexamples in Probability and Real Analysis

Logic, Sets, and Recursion

AMS Book and Journal Donation Program Donation #49

Parallel and Sequential Methods for Ordinary Differential Equations

Affine Lie Algebras, Weight Multiplicities, and Branching Rules, Volume 1 and Volume 2

The Information Access Series, Volume 1

Pere Menal Collected Works (2 COPIES)

Introductory Combinatorics

Thesaurus of English Words and Phrases

Automated Deduction in Multiple-valued Logics

Notes on Numerical Fluid Mechanics, Volume 46

Notes on Numerical Fluid Mechanics, Volume 48

Diagram Geometries

Selected Papers of Richard von Mises

Soviet Science and Technology

An Atlas of Brauer Characters

Selected Works of Irving Reiner

The Last Problem

Basic Mathematics

Collected Works of Kurt Godel

Operating Systems Programming

Graphical Models

Set Theory An Operational Approach

A Course in Group Theory

Artificial Intelligence in Mathematics
